(Schott). This method provides a complete course for players of all ages, guiding students from their first note to 'classics', together with compositions by contemporary writers. Accompanied by high quality rhythm section track recordings accessed online.

Right from the start, students can enjoy authentic jazz sounds, playing in the company of professionals. With step-by-step instruction and a progression of specially written pieces, the fundamental elements of good technique are introduced alongside the rhythmic subtleties of jazz. Improvisation is encouraged from an early stage and is given direction through the systematic study of scales and arpeggios and advice on ear-training and chord patterns. With supplementary suggestions for listening and reading, and an Appendix containing all the chord progressions for 'live' accompaniment of the tunes, The Jazz Method is ideally suited to both students working alone and those learning with a teacher. "John O'Neill has a solid understanding of jazz and how it can be taught. I highly

recommend his educational jazz materials." (Jamey Aebersold) "...a rare opportunity for a new player (or a more experienced one) to develop a really musical facility. A rare addition to the jazz improvising library." (Lee Konitz, international jazz saxophone soloist) - includes 'classics' by Thelonious Monk, Charlie Parker, Sonny Rollins and Horace Silver - "...very good original jazz tunes that students will use as stepping stones for further development... a non-jazz-playing flute teacher would probably find the book a godsend especially if students are studying GCSE music." "May be the best book ever
written about jazz."—David
Thomson, Los Angeles
Times In eight poetically
charged vignettes, Geoff
Dyer skillfully evokes the
music and the men who
shaped modern jazz.

Drawing on photos,
anecdotes, and, most
important, the way he hears
the music, Dyer
imaginatively reconstructs
scenes from the embattled
lives of some of the greats:
Lester Young fading away in
a hotel room; Charles
Mingus storming down the
streets of New York on a too-
small bicycle; Thelonious
Monk creating his own
private language on the
piano. However, music is
the driving force of But
Beautiful, and wildly
metaphoric prose that
mirrors the quirks,
eccentricity, and brilliance of
each musician's style.

Elegant People Hal Leonard

Today, jazz history is
dominated by iconic figures
who have taken on an almost
God-like status. From
Satchmo to Duke, Bird to
Trane, these legendary
jazzmen form the backbone of
the jazz tradition. Jazz icons
not only provide musicians
and audiences with
figureheads to revere but have
also come to stand for a
number of values and beliefs
that shape our view of the
music itself. Jazz Icons
explores the growing
significance of icons in jazz
and discusses the reasons
why the music's history is
increasingly dependent on the
legacies of 'great men'. Using
a series of individual case
studies, Whyton examines the
influence of jazz icons through
different forms of historical
mediation, including the
recording, language, image
and myth. The book
encourages readers to take a
fresh look at their relationship
with iconic figures of the past
and challenges many of the
dominant narratives in jazz
today.

Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was

a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is

the place.

• San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

The SAGE International Encyclopedia of Music and Culture Harvard Business Press
An intimate exploration into the musical genius of fifteen living jazz legends, from the longtime New York Times jazz critic Jazz is conducted almost wordlessly: John Coltrane rarely told his quartet what to do, and Miles Davis famously gave his group only the barest instructions before recording his masterpiece "Kind of Blue." Musicians are often loath to discuss their craft for fear of destroying its improvisational essence, rendering jazz among the most ephemeral and least transparent of the performing arts. In *The Jazz Ear*, the acclaimed music critic Ben Ratliff sits down with jazz greats to discuss recordings by the musicians who most influenced them. In the process, he skillfully coaxes out a profound understanding of the men and women themselves, the context of their work, and how jazz—from horn blare to drum riff—is created conceptually. Expanding on his popular interviews for *The New York Times*, Ratliff speaks with Sonny Rollins, Ornette Coleman, Branford Marsalis, Dianne Reeves, Wayne Shorter, Joshua Redman, and others about the subtle variations in generation, training, and attitude that define their music. Playful and keenly insightful, *The Jazz Ear* is a revelatory exploration of a unique way of making and hearing music.
