Scholars have long recognized that ethnographic method is bound up with the construction of theory in ways that are difficult to teach. The reason, Allaine Cerwonka and Liisa H. Malkki argue, is that ethnographic theorization is essentially improvisatory in nature, conducted in real time and in necessarily unpredictable social situations. In a unique account of, and critical reflection on, the

process of theoretical improvisation in ethnographic research, they demonstrate how both objects of analysis, and our ways of knowing and explaining them, are created and discovered in the give and take of real life, in all its unpredictability and immediacy. Improvising Theory centers on the year-long correspondence between Cerwonka, then a graduate student in political science conducting research in Australia, and her anthropologist mentor, Malkki. Through regular e-mail exchanges, Malkki attempted to teach Cerwonka, then new to the discipline, the basic tools and subtle intuition needed for anthropological fieldwork. The result is a strikingly original dissection of the processual ethics and politics of method in ethnography.

Iconic graphic designer and Academy Award--winning filmmaker Saul Bass

(1920--1996) defined an innovative era in cinema. His title sequences for films such as Otto Preminger's *The Man with the Golden Arm* (1955) and *Anatomy of a Murder* (1959), Alfred Hitchcock's *Vertigo* (1958) and *North by Northwest* (1959), and Billy Wilder's *The Seven Year Itch* (1955)

introduced the idea that opening credits could tell a story, setting the mood for the movie to follow.

Bass's stylistic influence can be seen in popular Hollywood franchises from the *Pink Panther* to *James Bond*, as well as in more contemporary works such as Steven Spielberg's *Catch Me If You Can* (2002) and television's *Mad Men*. The first book to examine the life and work of this fascinating figure, *Saul Bass: Anatomy of Film Design* explores the designer's revolutionary career and his lasting impact on the entertainment and advertising industries. Christopher Horak traces Bass from his humble beginnings as a self-taught artist to his professional peak, when auteur directors like Stanley Kubrick, Robert Aldrich, and Martin Scorsese sought him as a collaborator. He also discusses how Bass incorporated aesthetic concepts borrowed from modern art in his work, presenting them in a new way that made them easily recognizable to the public. This long-overdue book sheds light on the creative process of the undisputed master of film title design -- a man whose multidimensional talents and unique ability to blend high art and commercial imperatives profoundly influenced generations of filmmakers, designers, and advertisers. One of The Telegraph's Best Music Books 2011 Alex Ross's award-winning international bestseller, *The Rest Is Noise: Listening to the Twentieth Century*, has become a contemporary classic,

establishing Ross as one of our most popular and acclaimed cultural historians. Listen to This, which takes its title from a beloved 2004 essay in which Ross describes his late-blooming discovery of pop music, showcases the best of his writing from more than a decade at *The New Yorker*. These pieces, dedicated to classical and popular artists alike, are at once erudite and lively. In a previously unpublished essay, Ross brilliantly retells hundreds of years of music history—from Renaissance dances to Led Zeppelin—through a few iconic bass lines of celebration and lament. He vibrantly sketches canonical composers such as Schubert, Verdi, and Brahms; gives us in-depth interviews with modern pop masters such as Björk and Radiohead; and introduces us to music students at a Newark high school and indie-rock hipsters in Beijing. Whether his

subject is Mozart or Bob Dylan, Ross shows how music expresses the full complexity of the human condition. Witty, passionate, and brimming with insight, Listen to This teaches us how to listen more closely. Japan's Carnival War Springer Explores how Gershwin's iconic music was shaped by American political, intellectual, cultural and business interests as well as technological advances.

How a company 'positions' a brand is not necessarily how the consumer perceives that brand. Brands allow

marketers to add meaning to products and services, but it is consumers who ultimately determine what a brand means. The sources of brand meaning are many and varied, as are the ways in which meanings become attached to brands. Brand Meaning takes a comprehensive and holistic look at how consumers find and create meaning in brands. It explores the fundamental conscious and unconscious elements that connect people with products and brands.

Traditional marketing concepts are questioned, and a new brand meaning framework is put forward.

The book lays out new and fertile territory for the understanding of how brands can both assimilate and provide meaning. It will leave readers with a better

---

appreciation of what brand means and what brands mean. Primarily intended as a supplemental reader for undergraduate, graduate and MBA courses, the book's scope should also make it rewarding and valuable reading for practitioners in the fields of marketing and advertising.

In the decades following World War II, France experienced both a period of affluence and a wave of political, artistic, and philosophical discontent that culminated in the countrywide protests of 1968. In *Disordering the Establishment* Lily Woodruff examines the development of artistic strategies of political

---

resistance in France in this era. Drawing on interviews with artists, curators, and cultural figures of the time, Woodruff analyzes the formal and rhetorical methods that artists used to counter establishment ideology, appeal to direct political engagement, and grapple with French intellectuals' modeling of society. Artists and collectives such as Daniel Buren, Andr e Cadere, the Groupe de Recherche d'Art Visuel, and the Collectif d'Art Sociologique shared an opposition to institutional hegemony by adapting their works to unconventional spaces and audiences, asserting artistic autonomy from art institutions, and embracing interdisciplinarity. In showing how these artists used art to question what art should be and where it should be seen, Woodruff demonstrates how artists challenged and redefined the art establishment and their historical moment.
