The earliest version of the JDE ERP software was JD Edwards World. This 1980s release focused on accounting and was server-centric. Businesses would use the ERP technology leveraging IBM's green screen. In 1996 the company upgraded the software to JD Edwards One World which used a graphical user interface and Configurable Network Computing (CNC). The next years saw a robust evolution in the software, including a web-based client rollout in 2001.
