Classic G.I. JOE: Special Missions, Vol. 1 Jones & Bartlett Learning
This book addresses the web services arena with a specific agenda of providing information right from covering the fundamental aspects to its deployment and implementation issues. The content is introductory in nature, and covers not only the technology aspects, but also highlights the application scenarios across the industry. In order to illustrate the potential of web services, a case study exemplifying the Financial and Banking Services industry has been chosen for presentation the book.

Guide to Ethnohistorical Sources, Part One McGraw-Hill

As more students enter the growing field of sports management, there is a greater need for information informing them about their career choices. Careers in Sports provides an overview of what students should consider and expect from the varied career options available to them. This book answers the questions students are most likely to have, including what courses they should take, what areas are available to them, what salary can they expect to earn after graduation, and how they can get the job of their dreams. In the highly competitive field of sports management, it is important for individuals to prepare themselves well and to make the right decisions along the way. Although there are no guarantees of success, this book will increase students' likelihood of finding success in the sports industry.

Encouraging research and realistic expectations, this book has been developed by an author with many years of experience as a respected practitioner, teacher and internship coordinator.

InfoWorld Springer Science & Business Media

Annotation Written by two well-known industry experts, this book shows the reader how to design Terminal Server solutions with Microsoft Windows Server 2003. Rather than a re-hash of the product manuals, this book takes you step-by-step through each aspect of the design process. It focuses on architecture, server type and location, printing, security, management, application deployment, and user profiles. Whether you're using Citrix MetaFrame XP or just building a pure Terminal Server environment, this is the book you need to be successful.

Supply Chain Management concerns organizational aspects of integrating legally separated firms as well as coordinating materials and information flows within a production-distribution network. The Enterprise Resources Planning (ERP) systems being used for transaction handling and order execution in most firms today have been supplemented by Advanced Planning Systems (APS) for coordinating flows, exploiting bottlenecks and keeping due dates. This book provides insights regarding the concepts underlying APS. Special emphasis is given to modelling supply chains and implementing APS in industry successfully. Understanding is enhanced through the use of case studies as well as an introduction to the solution algorithms used. The second edition contains a considerable quantity of new material, especially a novel chapter on collaborative planning.

Proven strategies for companies seeking to accelerate an ERP implementation Almost all large and midsize corporations worldwide will be involved in implementing enterprise resource planning and/or e-business applications over the next two to three years. This is the only book that discusses how to implement a rapid ERP system and shows how e-business is impacted by the implementation of an ERP system. This book also provides valuable tried and true methods of keeping the project under or within budget. A quality ERP transaction foundation is a prerequisite for taking advantage of many of the new e-business opportunities that executives have placed high on their list of priorities. This valuable guide examines the strengths and weaknesses of ERP and shows when rapid implementation is not appropriate. The book also provides outsourcing alternatives and the use of application service alternatives, and shows how e-business is impacted by the implementation of an ERP system. Murrell G. Shields (McLean, VA) is the Director of Management Solutions and Services and National Leader of Technology and Infrastructure Services at Deloitte & Touche.

The Complete Reference

Guide to Ethnohistorical Sources comprises Volumes 12 through 15 of the Handbook of Middle American Indians, published in cooperation with the Middle American Research Institute of Tulane University under the general editorship of Robert Wauchope (1909–1979). The Guide

has been assembled under the volume editorship of the late Howard F. Cline, Director of the Hispanic Foundation in the Library of Congress, with Charles Gibson, John B. Glass, and H. B. Nicholson as associate volume editors. It covers geography and ethnogeography, especially the Relaciones Geográficas (Volume 12); sources in the European tradition: printed collections, secular and religious chroniclers, biobibliographies (Volume 13); sources in the native tradition: prose and pictorial materials, checklist of repositories, title and synonymy index, and annotated bibliography on native sources (Volumes 14 and 15). Volume 12, which is Part One of the Guide, contains the following: "Introduction: Reflections on Ethnohistory," "Introductory Notes on Territorial Divisions of Middle America," "Viceroyalty to Republics, 1786–1952: Historical Notes on the Evolution of Middle American Political Units," "Ethnohistorical Regions of Middle America," "The Relaciones Geográficas of the Spanish Indies, 1577–1648," "A Census of the Relaciones Geográficas of New Spain, 1579–1616," and "The Relaciones Geográficas of Spain, New Spain, and the Spanish Indies: An Annotated Bibliography," all the foregoing by Howard F. Cline. In addition it includes: "Colonial New Spain, 1519–1786: Historical Notes on the Evolution of Minor Political Jurisdictions" by Peter Gerhard; "The Pinturas (Maps) of the Relaciones Geográficas, with a Catalog" by Donald Robertson; "The Relaciones Geográficas, 1579–1586: Native Languages" by H. R. Harvey; and "The Relaciones Geográficas of Mexico and Central America, 1740–1792" by Robert C. West. The Handbook of Middle American Indians was assembled and edited at the Middle American Research Institute of Tulane University with the assistance of grants from the National Science Foundation and under the sponsorship of the National Research Council Committee on Latin American Anthropology.
