The Basics
Oswaal Books

For the longest time, parents and children both, knew and believed that Medicine, Engineering, Management and Law were the only true 'careers' which could provide job security and steady paycheques. However, youngsters today couldn't have been more open to trying out offbeat careers. They

are bold, patient, resilient and aware of the fact that a career that is in line with their interests has a higher chance of being satisfying. An equal, or probably more, parents are sceptical about these unconventional careers and would rather have their children go in for 'tried and tested' jobs. With 'Steps to Career', the author has attempted to dilute the dilemma of such children and their parents,

providing them a wealth of information on the available conventional and unconventional career options, to help the children decide the right career for them, and the process.

Excerpt from Teamwork for Employment and Management Act of 1995: Hearing of the Committee on Labor and Human Resources United States Senate, One Hundred Fourth Congress, First Session,

Permitting Labor Management Cooperative Efforts That Improve America's Economic Competitiveness to Continue to Thrive, and for Other Pu There are going to be other Senators coming - I am not going to be the only one here - but Senator Kennedy has said please go ahead and start. He is on his way, as are other Senators. Before I call the first witnesses, let me just give an opening statement which will give a little background on the legislation that we are going to be discussing

today. We are going to be hearing testimony on the cutting ed e of human resource practices. It is always hard for us to begin to t ink anew of ways that we can work in the workplace or work in the Congress; we have a hard enough time just thinking about ways to change our committees. But I think that if we really want to get ahead and make a constructive effort wherever we are, that we have to be willin to think anew. About the Publisher Forgotten Books publishes hundreds of
