Hi all. Im new to AJOR. I live in South Africa. Few months ago i bought a 2001 XJ (2.5td VM engine). She is in great condition, inside and out, really in love with this Jeep! And the engine seems to have been maintained nicely by the previous owner. Here in SA however, not many mechanics know much about this VM engine and parts are hard to locate.

The 2.5 is not a racing vehicle. All Jeeps are very capable vehicles offroad. Depending on the application and the terrain. A Jeep is never called a car. It is a JEEP klaar! The engines you are referring to are actually made by Detroit diesel in Mexico as VM motori was bought by Chrysler. Personally i have not had any issues with the engine in my Jeep.
