

fields of Guidance, Navigation and Control (GNC) in aerospace and other fields of technology. The Conference joins together the industry with the academia research. This book covers four main topics: Guidance and Control, Control Theory Application, Navigation, UAV Control and Dynamic. The papers included focus on the most advanced and actual topics in guidance, navigation and control research areas: • Control theory, analysis, and design • ; Novel navigation, estimation, and tracking methods • Aircraft, spacecraft, missile and UAV guidance, navigation, and control • Flight testing and experimental results • Intelligent control in aerospace applications • Aerospace robotics and unmanned/autonomous systems • Sensor systems for guidance, navigation and control • Guidance, navigation, and control concepts in air traffic control systems For the 4th CEAS Specialist Conference on Guidance, Navigation and Control the International Technical Committee established a formal review process. Each paper was reviewed in compliance with good journal practices by independent and anonymous reviewers. At the end of the review process papers were selected for publication in this book.

Flying Magazine

Now includes the new Sport Pilot Regulations as well as 14 CFR 135 with complete pilot/controller glossary. Also includes FAR Parts 1, 43, 61, 67, 71, 73, 91, 97, 119, 133, 135, 141, 142, HMR 175 and NTSB 830, and the complete FAA Aeronautical

Information Manual. The FAR/AIM uses special study lists to direct students to the appropriate FAR's and exercise questions tailored for private, instrument, commercial, and helicopter. ISBN# 0-88487-313-7
