It's that time of year when nights are longer, passions run hotter, and naughty wishes come true. Hot for Santa: The one man Rachel wants is strictly off limits, so she agrees to keep her distance, until he dresses up as old St. Nick and stirs a playful fantasy in Rachel. Maybe it's the black leather boots. Or the soft fur and red velvet. Whatever it is, she's Hot for Santa. Bad Boy Santa: As the owner and CEO of Sugar Bites, a multi-million dollar Candy Company, I set the office rules, and always lead by example. Until sweet little Eden sits on my lap and tells me all her Christmas

wishes. She had no idea I was behind the beard, and I had no idea that beneath her hideous Christmas sweaters, my newly appointed public relations manager was more naughty than nice. I should stay away. I want to stay away. The whole no fraternizing rule was put in place for a reason, but when she's tasked with helping me try out a new body chocolate, things get a little...sticky. I know better than to break my own rules, then again, they don't call me Santa Bad Boy because I'm...you know...good.

Josh Clark and Chuck Bryant started the podcast Stuff You Should Know

back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a

wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they 've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to

the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? is, his role throughout
history, and his presence in
our lives today. For
decades Kathie Lee has had
deep conversations about
her faith with anyone who
is interested in talking
about it. What she
discovered early on is most

people are very willing to
talk about Jesus: atheists,
agnostics, Scientologists,
Jews, broken-hearted
Catholics, confused
Baptists, Pentecostals,
Sikhs, Buddhists, and
Hindus alike. While some of
the people Kathie Lee has
spoken with do not share
her belief that Jesus is the

centuries by prophets in the
Hebrew scriptures—they
nonetheless have a
universal fascination with
Him. This singular man who
lived more than two
thousand years ago, and
never traveled more than
one hundred miles from

where He was born, managed to change the entire world. Even the way we delineate history (BC/AD) comes from His short thirty-three years of life. In *The Jesus I Know*, Kathie Lee shares cherished conversations that she 's had with others who find Jesus to be an ancient historical figure who somehow continues to be an undeniably magnetic, relevant presence in the modern world. Those conversations include actors like Kristin Chenoweth and Cynthia Garrett, with stories of Craig Ferguson and Kevin

Costner, newsmakers and news personalities like Kris Jenner, Megyn Kelly, Jason Kennedy, and Janice Dean, performers like Chynna Phillips Baldwin, Brian Welch, Jimmie Allen, and Jimmy Wayne, hitmakers like Louis York and David Pomeranz, as well as those coming from other faith traditions. Using Kathie Lee 's favorite Scripture passages as scaffolding, these thought-provoking exchanges will bring His teachings to life before your very eyes. *Jingle Bells* Martingale On Christmas Eve, Howard Langston is determined to
