This book consists of two titles, which are the following: Book 1: Are you nervous about your job interview? Do you have the feeling that you are not prepared to face an invasive number of questions about your accomplishments and career choices? Well, have no fear, my friend. You are at the right address. This book can guide you along. Topics that will be discussed in this book include how to make a lasting first impression, asking specific questions about your motivation, how to dress, what to bring, how to react on the phone (if

applicable), how to show your interviewer that you are listening and interacting, etc. Book 2: This book will lead you in your next job interview. It will help you understand the reasons why interviewers ask specific questions and how to answer them. Being prepared for those questions can increase your chances of getting the job you want. It will also show you which questions are smart to ask your potential future employer, because, as opposed to what some people may suppose, this is an important part of the interview to show how passionate you may be about your future job. Last but not least, most people forget to follow up and simply wait for the interviewer to contact them. This

is a big mistake. If you want to stand out among the crowd, it is important to follow up after the interview, and show how driven and motivated you are.
