Top 5 Job Costing Problems with Solutions | Cost Accounting

This creates a lot of complications. Companies have to employ a lot of clerical staff to sift through this paperwork and that adds to the overheads that job order costing is trying to minimize. For every job, there are several documents like quotation, invoice, sales order, materials receipt, labour tickets and so on. They need to be classified and maintained. Of late, information technology has helped in this regard. ERP systems have the option of job order costing inbuilt in them.
