Art of the Job Search Crown

Finding a job is a confusing and anxiety-provoking process for many individuals with Asperger's Syndrome (AS) who may not know what they are qualified to do and may struggle to communicate their value to employers. In this book, Asperger's employment expert Barbara Bissonnette describes exactly what it takes to get hired in the neurotypical workplace. Every aspect of finding employment is covered, from defining strengths and researching occupations, to marketing oneself and projecting confidence and enthusiasm in interviews. Job-hunters are taught how to develop a personal profile of their talents and skills, their ideal work environment, and important work criteria. They are then shown how to set realistic goals and develop an effective job search plan. There is detailed instruction on networking, including how to

find contacts and what to say. A wealth of checklists, templates, sample scripts and written communications accompany the text. Upfront, engaging and highly practical, this will be an essential guide for individuals with AS entering the workforce for the first time, as well as experienced workers who have lost jobs or wish to change careers but are uncertain about how to find the best match for their abilities.

The Smart Woman's Guide to Resumes

and Job Hunting Richard Blazeovich

The heart of the book remains unchanged: we still have plenty of hard-earned wisdom from co-op and internship professionals with decades of experience, covering the fundamentals of a job search and job performance. However, there are many significant additions, including guidance on: Job searches in the Digital Age, including LinkedIn profiles, online job sites, and how to get the attention of overwhelmed recruiters; How to handle a phone interview or Skype interview; The "Seven Deadly Sins of Cover Letters"; Capturing academic projects on a resume. The book now includes dozens of new contributions from co-op/internship educators, students, alumni, and employers. Charlie Bognanni of Northeastern University wrote a new appendix with specific tips for international students, and the UMass-Lowell team contributed several new tools and insights. Each chapter now ends with a "student roundtable" and "employer roundtable," where students will be able to read quite a few different perspectives on each chapter's topics. We also have updated the entire book to better reflect how technology has made it necessary to think a little differently about job search preparation, resumes, interviews, and job performance. --Description provided by publisher.
