John Deere - Claas Engines

Does anyone know if the 6068T engine block in a John Deere (7430, 7530) tractor is exactly the same as in a Claas Axion tractor? I've been told that some of the bolt holes are a different size as the JD sits in a chassis where as in the Claas the engine has to take a lot of the weight of the tractor, hence why the larger bolts, but this has not been confirmed!
