The Wisconsin Agriculturist

DIANE Publishing

This training of trainers (ToT) manual aims to provide

insights into the operation, maintenance and basic repair

of farm machinery. It provides an overview of the main

concepts of equipment that can facilitate sustainable

agriculture practices, with examples and guidelines on

the topic. Its objective is to provide extension officers,

technicians, mechanics, and youth with the necessary

information and skills to become trainers and deliver

technical capacity sessions on this topic. There is a mix of

theory and practice in this training. Participants must

have the time to individually perform the different tasks

described in the modules with close supervision. The training

manual comprises four modules: ? Module 1 covers

different tractors as a power source and power take-off

operations. ? Module 2 focuses on the implements

and equipment attached to tractors for field operations. ?

Module 3 is about harvest, post-harvest and storage

technologies. ? Module 4 covers general aspects and

tips for maintenance, spare parts and replacements.

Union Agriculturist and Western Prairie Farmer Primedia Business Directories & Books This book shows what makes such strategies work, and reveals the eye-opening results of a survey of over 700 business professionals. The recent rash of corporate scandals?and the ensuing financial ruin of companies and their stockholders -- proves that even the bluest of blue chip businesses cannot bank on the blind faith of consumers and investors. More than ever, corporations must rebuild, restore, and strengthen bonds of trust. Al Golin has helped create trust strategies for global business leaders including The Walt Disney Company, Hewlett-Packard, McDonald's, Toyota, Owens-Corning, and many others. In *Trust or Consequences*, he reveals how to: create an effective trust strategy determine the impact of trust issues on stakeholders assess trust-building

performance and calculate the difficulty of restoring trust create a "trust bank" for saving deposits of good will to draw on as needed This invaluable resource offers tools for identifying trust opportunities, as well as numerous inside accounts of trust-building successes and failures by high-profile organizations and leaders. Filled with provocative ideas about why many companies overlook trust issues, *Trust or Consequences* brings the subject to center stage -- where it must remain if companies are to regain stakeholder loyalty and competitive advantage.
