This individual Shop
Manual is one unit of a
series on agricultural wheel
type tractors. Contained in
it are the necessary
specifications and the brief
but terse procedural data
needed by a mechanic
when repairing a tractor on
which he has had no
previous actual experience.
The material is arranged in
a systematic order
beginning with an index
which is followed
immediately by a Table of
Condensed Service
Specifications. These
specifications include
dimensions, fits, clearances
and timing instructions.
Next in order of
arrangement is the
procedures section. In the
procedures section, the
order of presentation starts
with the front axle system
and steering and proceeds

toward the rear axle. The last portion of the procedures section is devoted to the power take-off and power lift systems. Interspersed where needed in this section are additional tabular specifications pertaining to wear limits, torquing, etc.
