International Politics on the World Stage,  
BRIEF McGraw-Hill

Education

*International Politics on the World Stage* GENERAL PRESS

International trade has shaped the modern world, yet until now no single book has been available for both economists and general readers that traces the history of the international economy from its earliest beginnings to the present day. Power and Plenty fills this gap, providing the first full account of world trade and development over the course of the last millennium. Ronald Findlay and Kevin O'Rourke examine the successive waves of globalization and "deglobalization" that have occurred during the past thousand years, looking closely at the technological and political causes behind these long-term trends. They show how the expansion and contraction of the world economy has been directly tied to the two-way interplay of trade and geopolitics, and how war and peace have been critical determinants of international trade over the very long run. The story they tell is sweeping in scope, one that links the emergence of the Western economies with economic and political developments throughout Eurasia centuries ago. Drawing

extensively upon empirical evidence and informing their systematic analysis with insights from contemporary economic theory, Findlay and O'Rourke demonstrate the close interrelationships of trade and warfare, the mutual interdependence of the world's different regions, and the crucial role these factors have played in explaining modern economic growth. *Power and Plenty* is a must-read for anyone seeking to understand the origins of today's international economy, the forces that continue to shape it, and the economic and political challenges confronting policymakers in the twenty-first century.

*Business Ethics: Ethical Decision Making and Cases*  
Macmillan

*Essential Readings in World Politics* introduces students to key literature on international relations—from classics in the field to contemporary debates among scholars today.

**The Inside Story of the Making and Unmaking of the Franken Presidency** MIT Press

This accessible, applied text covers the complex environment in which managers confront ethical decision making. Using a managerial framework, the authors address the overall concepts, processes, and best practices associated with successful business ethics programs--helping students

see how ethics can be integrated into key strategic business decisions. The Seventh Edition incorporates comprehensive and rigorous updates that reflect the ever-increasing academic and governmental attention being given to this area. The textbook program provides an abundance of real-world examples and cases, as well as exercises, simulations, and practice tests that provide plenty of opportunity for students to master the text material. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**The International System and the Power to Change** Scholastic Inc.

Although they have become more frequent in recent years, Irish political memoirs are still relatively rare. Even rarer still are political memoirs that still are frank, newsworthy and fun, like this one from Mary O'Rourke. She writes of personal and political events; of her family background and her early involvement in politics: of the many senior political figures to whom she was close, especially Charles Haughey and Bertie Ahern; of her two beloved Brians, her brother and nephew, both of whom

died before their time; of her successes and disappointments. She does all this with honesty, energy and a complete absence of self-pity or self-justification. Mary O'Rourke has been one of the most successful and influential women in Irish public life in a generation. She has stories to tell that will surprise and amuse, as well as recalling moments of personal and political sadness. The book is like the woman herself: open, warm and shrewd.

Rowman & Littlefield Publishers

Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions.

Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library ([www.thecochranelibrary.com](http://www.thecochranelibrary.com))

. The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and

maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.

Unbound: A Novel in Verse Vintage

Rhyming text and colorful, textured photographs introduce a variety of trucks, including fire trucks, dump trucks, and garbage trucks.

*Moral Issues in Business* Routledge

In this volume, several leading foreign policy and international relations experts consider the long term prospects and implications of US foreign policy as it has been shaped and practiced during the presidency of George W. Bush. The essays in this collection - based on the research of well-respected scholars such as Ole Holsti, Loch Johnson, John Ruggie, Jack Donnelly, Robert Leiber, Karen

Mingst, and Edward Luck - offer a clear assessment: while US resources are substantial, Washington's ability to shape outcomes in the world is challenged by its expansive foreign policy goals, its exceptionalist approach to international relations, serious questions about the limits of its hard power resources as well as fundamental changes in the global system. Illustrating one of the central ironies of the contemporary situation in foreign affairs and international relations: that at

the very time of the 'unipolar moment,' the world has become globalized to such an extent that the unilateralism of the Bush Administration leads as much to resistance as it does to coercion, compliance, and cooperation. American Foreign Policy in a Globalized World will be of interest to students and scholars of politics and international relations.

**A Culture of Deference** HarperCollins UK

This concise text provides students and instructors with a comprehensive overview of world politics, inviting them in a straightforward and accessible way to explore international relations and its new challenges. A hallmark of the text is the

authors' position that politics affect the lives of all of us, and that the individual can have an impact, whether small or large, by being politically aware and by taking action. The eighth edition includes an enhanced art program with 7 more charts and analyses and updates of currents including economic trends, possibilities of a new direction in U.S. foreign policy under the Obama administration, global environment issues and much more.

*The Book of Essie* Penguin UK

'I knew that the black dot of pain that lay in the centre of his eyes also lay in mine, and that it was a stain that no amount of washing or praying could shift. I think of my loneliness, how it coils around the centre of my being like a long thread of steel and realise that my father must have been the same, he stood on the outside of our family condemned as an ogre, just as I do now.' Gabriel O'Rourke seemingly has everything: a loving wife, an adoring young son, a worthwhile job. He is rooted in a community, is part of a family, has a home. Yet, gradually, his world slowly pulls apart, until Gabriel finds himself homeless and destitute, living out of rubbish skips on the street. In a psychotic haze he is admitted into a secure unit, his body addled by alcohol, his mind broken. Here, in confronting

the blighting reality of his own alcoholism, Gabriel is forced finally to unearth the muddled spectre of the past: his traumatic relationship with his father, the black betrayals by those around him, and the true darkness of some obsessions. Learning to navigate a landscape pockmarked with trauma to undergo a journey of painstaking absolution and halting reconstruction, Gabriel understands that only by untangling the mistakes of the past can he hope to reclaim his future.

Robert's Rules of Order Newly Revised In Brief, 3rd edition  
Routledge

Known for its clear presentation style, single-author voice, and focus on content most relevant to clinical and pre-clinical students, Guyton and Hall Textbook of Medical Physiology, 14th Edition, employs a distinctive format to ensure maximum learning and retention of complex concepts. A larger font size emphasizes core information, while supporting information, including clinical examples, are detailed in smaller font and highlighted in pale blue – making it easy to quickly skim the essential text or pursue more in-depth study. This two-tone approach, along with other outstanding features, makes this bestselling text a favorite of students worldwide. Offers a clinically oriented perspective written with the clinical and preclinical student in mind, bridging basic physiology with

pathophysiology. Focuses on core material and how the body maintains homeostasis to remain healthy, emphasizing the important principles that will aid in later clinical decision making. Presents information in short chapters using a concise, readable voice that facilitates learning and retention. Contains more than 1,200 full-color drawings and diagrams – all carefully crafted to make physiology easier to understand. Features expanded clinical coverage including obesity, metabolic and cardiovascular disorders, Alzheimer's disease, and other degenerative diseases. Includes online access to interactive figures, new audio of heart sounds, animations, self-assessment questions, and more. Evolve Instructor site with an image and test bank is available to instructors through their Elsevier sales rep or via request at

<https://evolve.elsevier.com>.

*Congress, the President, and the Course of the U.S.-led Invasion and Occupation of Iraq* Gill & Macmillan

Provides students and instructors with the information available, inviting them to explore international relations and its challenges in a straightforward, accessible way. A hallmark of the text is its position that international relations do matter to students and that the individual can have an impact on international relations.

**Unconventional Warfare (Special Forces, Book 1)**

MIT Press

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.
