relationship
management

strategy with ladders
of engagement that
will improve how
your organization
realizes its mission.
Use case studies
and step-by-step
examples to put the
raw concepts into
real-life terminology
and build your
solutions. Who This
Book Is For The
book is primarily for
administrators
tasked with

implementing, configuring, maintaining, and updating CiviCRM, and staff users who are looking to better understand the tools available in order to become power users. CiviCRM is software that may be used by advocacy groups, non-profit, and non-governmental organizations, elected officials, professional and trade associations, government entities, political campaigns and parties, and other similar organizations, and this book will prove useful to all such users. What You Will Learn Install and configure your CiviCRM Analyze your current workflows and processes to	translate them effectively into the CiviCRM model Build an integrated system to solicit, retain, and manage your donors and members through robust management and reporting tools for administrators Raise more money with CiviCRM with effective solicitation campaigns Market events effectively and track registrations and payments Improve communications with constituents using targeted broadcast e-mail campaigns Track ongoing communications with constituents including from Outlook and Gmail using activities and case management tools Take advantage of the	many CiviCRM tools to generate both simple and complex event structures and manage registrants through every phase of the project In Detail CiviCRM provides a powerful toolbox of resources to help organizations manage relationships with constituents. It is free, open source, web-based, and geared specifically to meet the constituent relationship management needs of the not-for-profit sector. Beginning with broader questions about how your organization is structured, which existing workflows are critical to your operations, and the overarching
--	---	--

purpose of a centralized CRM, the book proceeds step by step through configuring CiviCRM, understanding the choices when setting up the system, importing data, and exploring the breadth of tools available throughout the system. You will see how to best use this software to handle event registrations, accept and track contributions, manage paid and free memberships and subscriptions, segment contacts, send bulk e-mails with open and click-through tracking, manage outreach campaigns, and set up case management workflows that match your

organization's roles and rules. With specific emphasis on helping implementers ask the right questions, consider key principals when setting up the system, and understand usage through case studies and examples, the book comprehensively reviews the functionality of CiviCRM and the opportunities it provides. With this book, you can help your organization better achieve its mission as a charity, industry association, professional society, political advocacy group, community group, government agency, or other similar organization

and position yourself to become a power user who efficiently and effectively navigates the system. Style and approach This guide is packed with step-by-step tutorials and real-life examples interspersed with practical advice and best practices on how to use CiviCRM strategically. You will be able to quickly grasp and implement the basic elements of CiviCRM before moving on to more advanced tools.

This second edition
of *Foundations of
Nursing Practice* has
been revised and
updated specifically
to meet the needs of
nursing students in all
fields of practice The
book explains how
and why sensitive,
safe, evidence-based
holistic nursing care
is carried out,
including topics
common to all fields
of practice. Core
nursing skills are
emphasised to reflect
the importance of
clinical skills as well
as the underpinning
theory. Aids to
learning in each
chapter: Learning
outcomes Interactive
boxes for all age

groups and fields of
nursing practice Key
words and phrases for
literature searching
Useful websites,
references and further
reading. This book
provides a
comprehensive
introduction to
nursing that will meet
the needs of students,
nurses returning to
practice, mentors and
other registered
nurses. Relevant to all
branches of nursing
settings: infants,
children, adults,
pregnant women,
older people and
people with a learning
disability or mental
health problems
Themes relevant to all
stages and fields of
nursing practice
include safety,
infection prevention
and control, managing
stress,
communication,
managing wounds and

pressure ulcers, and dealing with loss
Scenarios develop the skills of evidence-based practice, critical thinking, reflection and health promotion, and encourage further learning The areas of psychology, sociology, physiology and pathology are clearly related to nursing practice Key principles of health promotion, the law and ethics, the human lifespan and development are explained in earlier chapters, then applied in later chapters Cultural diversity information helps with understanding the needs of people from different backgrounds Person-centred approach encourages problem solving and application to practice Evidence-based

practice is explicit throughout, and best-practice guidelines underpin exploration/explanation of nursing care. Easy-reference Glossary at the back of the book. Meets the requirements of the new pre-registration nursing curriculum including the NMC (2010) competencies and Essential Skills Clusters Greater emphasis on safeguarding vulnerable people, maternal health and first aid Self-test questions with answers available on accompanying website.
