Focusing on an era that both inherited and irretrievably altered the form and the content of earlier art production, *The Art-Journal and Fine Art Publishing in Victorian England, 1850-1880* argues that fine art practices and the audiences and markets for them were influenced by the media culture of art publishing and journalism in substantial and formative ways, perhaps more than at any other time in the history of English art. The study centers on forms of Victorian picture-making and the art knowledge systems defining them, and draws on the histories of art, literature, journalism, and publishing. The historical example employed in the book is that of the more than 800 steel-plate prints after paintings published in the London-based Art-Journal between 1850 and 1880. The cultural phenomenon of the Art Journal print is shown to be a key connector in mid-Victorian art appreciation by drawing out specific tropes of likeness. This study also examines the important links between paint and print; the aesthetic values and domestic aspirations of the Victorian middle class; and the inextricable intertwining of fine art and 'trade' publishing.

As a textual form, the *essai* predominates in modern and contemporary literature in French. Emerging from an earlier tradition and distinguished from its English-language counterpart, the French-language essay ranges from Stéphane Mallarmé to Colette, Victor Segalen to Aimé Césaire, Jean Grenier to Pierre Michon. The *essai* remains, however, one of the most hazily identified of textual forms, its definition often depending on the progressive elimination of all other generic possibilities. Excluded from the archigenres (theatre, poetry, *récit*), it can even be seen as a hold-all category whose role is to absorb the anarchic extremes of writing. It is perhaps this

very lack of pretension to orthodoxy that has drawn so many writers to the *essai*. The conventional understanding of the term - as a tentative, unsystematic exploration - stresses the genre's provisional nature, its refusal of any claims to comprehensiveness. The *essai* exploits the devices of anecdote, illustration and humour; it is addressed to a wide and often general audience; it is also intricately linked to the performance of ideological and writerly strategies, often reordering the classical art of rhetoric and persuasion. As the contributions to this volume show, there is a need to outline an ethics and politics, as well as poetics, of essayism. [Henry Fielding, Political Writer](#) McGraw-Hill Education (UK)

An accurate and comprehensive study of the political aspects of Fielding's art has been sorely needed. As a result of decades of

work by literary scholars and a series of great historians, such a study is finally possible.

This volume addresses that need, and, in the light of a recent revival of interest in Fielding's work, it arrives most opportunely. The author offers here a wide-ranging focus and a firm grip on the shifting complexities of Fielding's political situations—the loyalties and enmities, factional alignments and fractious rhetoric—that allow a satisfactory understanding of Fielding's political writing. Political writing in Fielding's day, as in ours, was topical, concerned with evanescent problems and day-to-day needs that were familiar to contemporaries, but that are now recaptured only with greatest difficulty. This study constitutes a thorough reconstruction of Fielding's political context and extricates from the context Fielding's own political endeavours. Cleary's work will make many of Fielding's previously unstudied work accessible to students and scholars of eighteenth-century English literature. A necessary point of reference to both literary specialists and historians concerned with eighteenth-century England.

This book explores what remains an under-studied aspect of Samuel Johnson's profile as a person and writer – namely, his attitude to social improvement. The interpretive framework provided here is cross-disciplinary, and applies perspectives from social and cultural history, legal history, architectural history and, of course, English literature. This allows Johnson's writings to be read against the peculiarities of their historical milieu, and reveals Johnson in a new light – as an advocate of social improvement for human betterment. Considering the multiplicity of narrative modes that have been employed, the book points to the blurred boundaries and overlapping between history, testimony and fiction, and argues that a future biography of Samuel Johnson has to recognise that throughout his life he valued the utilitarian aspect of his manifesto as a writer to impart a more charitable attitude in the pursuit of a more caring society.
