[Sensory Marketing](#) Routledge

Shelby Hunt's revision of "Foundations of Marketing Theory" continues the tradition of the previous three by providing a clear framework for advancing marketing thought and research.

[Marketing Theory: Philosophy of Science Perspectives](#) Routledge

This book presents theories and case studies for corporations in developed nations, including Japan, for designing strategies to maximize opportunities and minimize threats in business expansion into developing nations. The case studies featured here focus on Asia, including China and India, and use examples of Japanese manufacturers. Five case studies are provided, including Hitachi Construction Machinery and Shiseido in China and Maruti Suzuki in India. These cases facilitate the reader's understanding of the business environments in emerging economies. This volume is especially recommended for business people responsible for international business development, particularly in China and India. In addition, the book serves as a useful resource for students in graduate-level courses in international management.

[Marketing Theory](#) Routledge

One of the true classics in Marketing is now thoroughly revised and updated. "Marketing Theory" is both evolutionary and revolutionary. As in earlier editions, Shelby Hunt focuses on the marketing discipline's multiple stakeholders. He articulates a philosophy of science-based 'tool kit' for developing and analyzing theories, law-like generalizations, and explanations in marketing science. Hunt adds a new dimension to the book, however, by developing arguments for the position that Resource-Advantage Theory provides the foundation for a general theory of marketing and a theoretical foundation for business and marketing strategy. Also new to this edition are four chapters adapted and updated from Hunt's "Controversy in Marketing Theory" that analyze the 'philosophy debates' within the field, including controversies with respect to scientific realism, qualitative methods, truth, and objectivity.

[Modern Marketing Theory](#) CABI

This four-volume major work brings together the key articles on marketing theory, with a distinctive focus on international developments in the field. In the past few years, the theoretical and conceptual basis of the discipline has been scrutinised and deepened via exposure to alternative ways of understanding marketing and consumer practice. This has occurred as a result of some truly exemplary research being conducted outside of marketing's traditional empirical context; the United States. This major work seeks to engage with this rather underexplored dimension of marketing theory, taking in literature which, for example, situates contemporary business marketing practices in a global context by comparing the systems in West Africa, Argentina, and the United States, while other contributions explore Chinese, Russian and West European practices. This comprehensive, global approach to the topic makes for an invaluable resource for scholars in the field worldwide. Volume One: Performing Marketing Volume Two: Managing Marketplace Relations Volume Three: The Boundaries of Marketing and Consumer Practice Volume Four: Transforming Marketing, Consumer and Society Dynamics

[Marketing Performativity](#) SAGE Publications Limited

Outlining the key themes, concepts and theoretical areas in the field, this book draws on contributions from prominent researchers to unravel the complexities of consumer culture by looking at how it affects personal identity, social interactions and the consuming human being. A field which is characterised as being theoretically challenging is made accessible through learning features that include case study material, critical reflection, research directions, further reading and a broad mix of the types of consumers and consumption contexts including emerging markets and economies. The

structure of the book is designed to help students map the field in the way it is interpreted by researchers and follows the conceptual mapping in the classic Arnould & Thompson 2005 journal article. The book is organised into three parts - the Consumption Identity, Marketplace Cultures and the Socio-Historic Patterning of Consumption. Insight is offered into both the historical roots of consumer culture and the everyday experiences of navigating the contemporary marketplace. The book is supported by a collection of international case studies and real world scenarios, including: How Fashion Bloggers Rule the Fashion World; the Kendall Jenner Pepsi Commercial; Professional Beer Pong, Military Recruiting Campaigns, The World Health Organization and the Corporatization of Education. The go-to text for anyone new to CCT or postgraduate students writing a CCT-related thesis.

[Society Of The Spectacle](#) Routledge

The Second Edition of this text maintains a scholarly approach, providing students with an up-to-date understanding of both the theory and practice of social media marketing, whilst taking a thorough refreshment of the cases, examples and the literature. It offers a critical evaluation of the theoretical frameworks that can be used to explain and utilise social media, providing discussion questions and further reading throughout. Readers are invited to think about the different types of social media users and explore topics such as brand loyalty, co-creation, marketing strategy, measurement, mobile platforms, privacy and ethics. As well as tracing the emergence and trends of Web 2.0 and what they mean for marketing, the author also considers the future for social media marketing. The book is supported by real-life examples and case studies from a range of industries, companies and countries such as China, Canada, Sweden and Singapore. They include DHL (Germany), Dubai Foundation for Women and Children, Google (Taiwan), Addict Aide (France) Canada (opera Vancouver), Britain (British Tourism), Procter & Gamble (Global), Maggi (India), McDonalds (Global), eBags (US/Global), Vodafone (Romania). Online resources for this book are available here Suitable for Marketing, Advertising or Media students taking classes on social media or digital marketing at upper undergraduate, Masters or Doctoral level.

[Assessing the Different Roles of Marketing Theory and Practice in the Jaws of Economic Uncertainty](#) Springer Nature

This volume includes the full proceedings from the 2004 Academy of Marketing Science (AMS) Annual Conference held in Vancouver, Canada, entitled Assessing the Different Roles of Marketing Theory and Practice in the Jaws of Economic Uncertainty. It include papers aimed to create awareness of the issues, trends, and advances associated with current marketing theories and practices. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complementing the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science.

[Marketing Theory](#) SAGE

Marketing Theory presents a comprehensive scholarly overview of the development of marketing theory. Drawing on a variety of international sources, the three editors bring together key contributions to the field that reflect both historical and contemporary debates and influences. This major work draws together the many disparate perspectives that have contributed to the development of marketing theory to provide scholars with a substantive reference base from which to further develop the area. Gendering Theory in Marketing and Consumer Research John Wiley & Sons 'For the student at undergraduate and postgraduate level, this book must become the standard reference to rival or replace Kotler, not least because it avoids any American bias and is a great deal less expensive.' International Journal of Advertising Selected for the Good Book Guide for Business.

[E-Marketing Publishing Horizons](#), Incorporated

Effective marketing is essential for any successful sport organization, from elite international teams to local leagues. Now in a fully revised and updated third edition, Advanced Theory and Practice in Sport Marketing is still the only text to introduce key theory and best practice at an advanced level. This new edition goes beyond the introductory marketing course by exploring advanced marketing theories related to social responsibility, global issues, information systems, consumer behavior, product management, logistics, sales, promotions, and social/digital/mobile media. New to the edition are sections on branding, destination marketing, and performance evaluation that demonstrate how to measure impacts through sport marketing and how to use analytics to determine sport marketing success. Every chapter contains extended case studies

and theory-to-practice insights from marketing professionals around the world and a companion website includes an impressive array of additional teaching and learning resources. Advanced Theory and Practice in Sport Marketing goes further than any other textbook to prepare students for the real world of sport marketing. It is essential reading for any upper-level undergraduate or postgraduate course in sport marketing or sport business.

[Social Media Marketing](#) Thomson South-Western

Marketing Theory introduces and explains the role of theory in marketing by uncovering its histories, disciplinary underpinnings, subfields, discourses and debates. From strategy and ethics to digital marketing and consumer behaviour, leading marketing experts shine a light on what can be a challenging perspective of marketing. In this new Third Edition there are up-to-date examples from global companies such as Pepsi, Amazon and H&M; entirely new chapters on Digital and Social Media Marketing, and Service-Dominant Logic (SD-L) and contributions from Global Specialists including Bob Lusch, Patrick Murphy and Susan Hart. Ideal for Upper level undergraduate and postgraduate marketing students studying marketing theory, critical marketing, and the history of marketing modules.

[The SAGE Handbook of Marketing Theory](#) SAGE

Combining academic rigour and practical application, E-Marketing brings together a theoretical framework from academic peer reviewed literature with contemporary developments in internet technology. Considering marketing theory and practice, the text demonstrates how conceptual frameworks can be applied to the e-marketing environment.

[Political Marketing](#) SAGE

What is sensory marketing and why is it interesting and also important? Krishna defines it as marketing that engages the consumers' senses and affects their behaviors. In this edited book, the authors discuss how sensory aspects of products, i.e., the touch, taste, smell, sound, and look of the products, affect our emotions, memories, perceptions, preferences, choices, and consumption of these products. We see how creating new sensations or merely emphasizing or bringing attention to existing sensations can increase a product's or service's appeal. The book provides an overview of sensory marketing research that has taken place thus far. It should facilitate sensory marketing by practitioners and also can be used for research or in academic classrooms.

[Foundations of Marketing Theory](#) Routledge

This book offers a comprehensive understanding of the concept and scope of the tourism industry in general and of destination marketing and management in particular. Taking an integrated and comprehensive approach, it focuses on both the macro and micro aspects of destination marketing and management. The book consists of 27 chapters presented in seven parts with the following themes: concept, scope and structure of destination marketing and management, destination planning and policy, consumer decision-making processes, destination marketing research, destination branding and positioning, destination product development and distribution, the role of emerging technologies in destination marketing, destination stakeholder management, destination safety, disaster and crisis management, destination competitiveness and sustainability, and challenges and opportunities for destination marketing and management.

[Digital and Social Media Marketing](#) Springer

As the importance of marketing to business grows, and as new concepts and applications of marketing emerge and evolve, so too does the need for up-to-date market intelligence. This book recognizes that the contribution which qualitative research can make to market understanding and insight is immense, and that statistical information flows are never enough but need to be compounded by market intelligence gained through qualitative methods. Qualitative Marketing Research clearly explains the use and importance of qualitative methods, clarifying the theories behind the methodology and providing concrete examples and exercises which illustrate its application to Management Studies and Marketing. This book is intended for all students of marketing who are required to complete their studies with a dissertation or research project.

[Consumer Culture Theory](#) SAGE

This thought-provoking book chronicles the evolution of marketing theories and the rationales behind them. The authors present a typology for the twelve schools of marketing thought, and describe a comprehensive metatheoretical framework based on six basic criteria. They also develop a list of concepts and axioms useful in generating a practical theory of marketing. References are extensive and include many pioneering, seldom-cited works. Graduate students and marketing professionals will find this a stimulating and practical work.

[Theory Construction in Marketing](#) Routledge

Marketing is still widely perceived as simply the creator of wants and needs through selling and

advertising and marketing theory has been criticized for not taking a more critical approach to the subject. This is because most conventional marketing thinking takes a broadly managerial perspective without reflecting on the wider societal implications of the effects of marketing activities. In response this important new book is the first text designed to raise awareness of the critical, ethical, social and methodological issues facing contemporary marketing. Uniquely it provides:

- The latest knowledge based on a series of major seminars in the field
- The insights of a leading team of international contributors with an interdisciplinary perspective
- A clear map of the domain of critical marketing
- A rigorous analysis of the implications for future thinking and research.

For faculty and upper level students and practitioners in Marketing, and those in the related areas of cultural studies and media Critical Marketing will be a major addition to the literature and the development of the subject.

Ubiquitous Music SAGE

'This book, written by a group of outstanding UK researchers, pinpoints the essence and scope of relationship marketing and vividly demonstrates its applicability in different industries. Relationship marketing is the marketing of the next millennium. Don't argue. Just read the book!' - Evert Gummesson, Stockholm University

By examining the relationship between theory and practice, Relationship Marketing appears at an important stage in the development of relationship marketing. The opening chapter examines relationship marketing (RM) theory, reviews a number of RM definitions and reports on the economic arguments in favour of RM. It describes the nature and scope of marketing relationships, picking out characteristics such as concern for the welfare of customers, trust and commitment between partners, and the importance of customer service. Finally, it identifies a number of requirements for successful RM. The next 12 chapters describe, analyze and critique RM practice in a number of organizational settings (supply-chain relationships, principal-agent relationships, business-to-business relationships, intra-organizational relationships) and industries (hospitality, air travel, retail banking, corporate banking, credit cards, financial advisory services, advertising agencies, not-for-profit organizations). The final chapter reflects on the relationships between theory and practice.

Relationship Marketing Routledge

Gendering Theory in Marketing and Consumer Research showcases state-of-the-art scholarship on gender in the field of marketing and consumer research. The book presents seven original contributions by a group of internationally renowned academics, who take up the task of theorising gender and gendering theory in new ways, accommodating recent intersectional, material-discursive, and practice-oriented theorisations. Connecting the study of marketing and consumer behaviour to different theoretical perspectives on gender, the contributors explore and critically examine the gendered nature and dimensions of contemporary marketplace activity. Through innovative conceptual development and insightful empirical analyses, the book offers important scholarly contributions to the literature on gender, marketing, and consumer research, and advances our understanding of gender as lived experience and socially regulated performance. It also frequently employ an intersectionalist perspective, theorising gender as only a part of one's subject position, which is constituted by mutually reinforcing categories. The book will be essential reading for students, scholars, and practitioners who are interested in the implications and contemporary manifestations of gender as a cultural category in the marketplace. This book was originally published as a special issue of the Journal of Marketing Management.

Introduction to Marketing Routledge

Social media has quickly become part of the fabric of our daily lives, and as we have flocked to it, so have most companies and organisations from every sector and industry. It is now the place to attract and sustain our attention. But how is it a new marketing activity and how is it similar to previous practice and customer behaviour? Does it require new modes of thinking about human networks and communications or do the existing conceptual models still apply? This book offers a critical evaluation of the theoretical frameworks that can be used to explain and utilise social media, and applies them to fun real-life examples and case studies from a range of industries, companies and countries. These include Unilever, Snickers, American Express, Volkswagen and Amnesty International, and span campaigns run across different platforms in countries such as China, Canada, Sweden and Singapore. Readers are invited to think about the different types of social media users and explore topics such as brand loyalty, co-creation, marketing strategy, measurement, mobile platforms, privacy and ethics. As well as tracing the emergence and trends of Web 2.0 and what they mean for marketing, the author also considers the future for social media marketing. Discussion questions and further reading are provided throughout, and the book is accompanied by a companion website.
