The #1 New York Times bestseller! It's the Salem Witch Trials meets Mean Girls in this New York Times bestselling novel from one of the descendants of Cotton Mather, where the trials of high school start to feel like a modern-day witch hunt for a teen with all the wrong connections to Salem's past. Salem, Massachusetts, is the site of the infamous witch trials and the new home of Samantha Mather. Recently transplanted from New York City, Sam and her stepmother are not exactly welcomed with open arms. Sam is the descendant of Cotton Mather, one of the men responsible for those trials—and almost immediately, she becomes the enemy of a group of girls who call themselves the Descendants. And guess who their ancestors were? If dealing with that weren't enough, Sam also comes face to face with a real, live (well, technically dead) ghost. A handsome, angry ghost who wants Sam to stop touching his stuff. But soon Sam discovers she is at the center of a centuries-old curse affecting anyone with ties to the trials. Sam must come to terms with the ghost and

find a way to work with the Descendants to stop a deadly cycle that has been going on since the first accused witch was hanged. If any town should have learned its lesson, it's Salem. But history may be about to repeat itself. "It's like Mean Girls meets history class in the best possible way." —Seventeen Magazine "Mather shines a light on the lessons the Salem Witch Trials can teach us about modern-day bullying—and what we can do about it." —Bustle "Strikes a careful balance of creepy, fun, and thoughtful." —NPR I am utterly addicted to Mather's electric debut. It keeps you on the edge of your seat, twisting and turning with ghosts, witches, an ancient curse, and—sigh—romance. It's beautiful. Haunting. The characters are vivid and real. I. Could. Not. Put. It. Down." —Jennifer Niven, bestselling author of All the Bright Places

This book draws from and analyzes teachers' and students' stories of great classes in order to promote teachers' development of pedagogical tact and

to encourage flow states for students. Taken together, these theoretical lenses—pedagogical tact and flow—provide a valuable framework for understanding and motivating classroom engagement. As the authors suggest, tactful teachers are more likely to see their students in flow than teachers who struggle with basic classroom routines and practices. Grounded in narrative research, and written for pre-service teachers, the book offers strategies for replicating these first-hand accounts of peak classroom teaching and learning.

Racially Writing the Republic investigates the central role of race in the construction and transformation of American national identity from the Revolutionary War era to the height of the civil rights movement. Drawing on political theory, American studies, critical race theory, and gender studies, the contributors to this collection highlight the assumptions of white (and often male) supremacy underlying the thought and actions of major U.S. political and social leaders. At the same time, they examine how nonwhite writers and activists have struggled against racism and for the full realization of America's political ideals. The essays are arranged chronologically by subject, and, with one exception, each essay is focused on a single figure, from George Washington to James Baldwin. The contributors analyze Thomas Jefferson's legacy in light of his sexual relationship with his slave, Sally Hemings; the way that Samuel Gompers, the first president of the American Federation of Labor, rallied his organization against Chinese immigrant workers; and the eugenicist origins of the early-twentieth-century birth-control movement led by Margaret Sanger. They draw attention to the writing of Sarah Winnemucca, a Northern Piute and one of the first published Native American authors; the anti-lynching activist Ida B. Wells-Barnett; the Filipino American writer Carlos Bulosan; and the playwright Lorraine Hansberry, who linked civil rights struggles in the United States to anticolonial efforts abroad. Other figures considered include Alexis de Tocqueville and his traveling companion Gustave de Beaumont, Juan Nepomuceno Cortina (who fought against Anglo American expansion in what is now Texas), Abraham Lincoln, Theodore Roosevelt, and W. E. B. Du Bois. In the afterword, George Lipsitz reflects on U.S. racial politics since 1965. Contributors. Bruce Baum, Cari M. Carpenter, Gary Gerstle, Duchess Harris, Catherine A.
