Difference Between Journal and Ledger Explained

The key difference between Journal and Ledger is that Journal

is the first step of the accounting cycle where all the accounting transactions are analyzed and recorded as the journal entries, whereas, ledger is the extension of the journal where journal entries are recorded by the company in its general ledger account on the basis of which the financial statements of the company is prepared.

Category:Accounting journals and ledgers - Wikipedia

Recording and tracking uncommon transactions like depreciation, bad debt, and the sale of assets are made easier with journals. Journals and ledgers also help you to capture both the debit and the credit sides of transactions. This is often overlooked when companies do not use books.

The source of information for the ledger is the journal. Thus, journal is subsidiary to the ledger and the ledger is the principal or main book of account. The method of writing from journal to the ledger is called posting or ledger posting.
