Finding plant-based recipes? Easy. Dealing with the social, cultural, and emotional aspects of being vegan in a non-vegan world? That's the hard part. The Joyful Vegan is here to help. Many people choose veganism as a logical and sensible response to their concerns about animals, the environment, and/or their health. But despite their positive intentions and the personal benefits they experience, they're often met with resistance from friends, family members, and society at large. These external factors can make veganism socially difficult—and emotionally exhausting—to sustain. This leads to an unfortunate reality: the majority of vegans (and vegetarians) revert back to consuming meat, dairy, or eggs—breaching their own values and sabotaging their own goals in the process. Colleen Patrick-Goudreau, known as "The Joyful Vegan," has guided countless individuals through the process of becoming vegan. Now, in her seventh book, *The Joyful Vegan*, she shares her insights into why some people stay vegan and others stop. It's not because there's nothing to eat. It's not because there isn't enough protein in plants. And it's not because people lack willpower or moral fortitude. Rather, people stay vegan or not depending on how well they navigate the social, cultural, and emotional aspects of being vegan: constantly being asked to defend your eating choices, living with the awareness of animal suffering, feeling the pressure (often self-inflicted) to be perfect, and experiencing guilt, remorse, and anger. In these pages, Colleen shares her wisdom for managing these challenges and arms readers—both vegan and plant-based—with solutions and strategies for "coming out vegan" to family, friends, and colleagues; cultivating healthy relationships (with vegans and non-vegans);

communicating effectively; sharing enthusiasm without proselytizing; finding like-minded community; and experiencing peace of mind as a vegan in a non-vegan world. By implementing the tools provided in this book, readers will find they can live ethically, eat healthfully, engage socially—and remain a joyful vegan.

NEW YORK TIMES BESTSELLER • Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. "A loving invitation to live our best lives and a profound reassurance of why and how we can." —Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* **NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH** The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means "dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life." The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy. **Healthful Living** Joyous Health

Midnight Chicken Rodale

From the #1 New York Times bestselling author of *Eat to Live* and *The End of Diabetes*, an unflinching, provocative exploration of how our food is killing us and the ways in which we are unwitting participants in an unprecedented and exploding health crisis. Fast food is far more than just the burgers, fries, and burritos served at chain restaurants; it is also the toxic, human-engineered products found in every grocery store across America. These include: cold breakfast cereals; commercial and preserved (deli) meats and cheeses; sandwich breads and buns; chips, pretzels, and crackers; fried foods; energy bars; and soft drinks. Fast foods have become the primary source of calories in the United States and consequently the most far-reaching and destructive influence on our population. The indisputable truth is that our highly processed diet is the source of a national health crisis that is exploding into a genocide with unseen tragic implications. Heart attacks, strokes, cancer, obesity, ADHD, autism, allergies, and autoimmune diseases all have the same root cause – our addiction to toxic ingredients. New York Times bestselling author, board-certified physician, nutritional researcher, and leading voice in the health field Joel Fuhrman, M.D., explains why the problem of poor nutrition is deeper, more serious, and more pervasive than anyone imagined. *Fast Food Genocide* draws on twenty-five years of clinical experience and research to confront our fundamental beliefs about the impact of what we eat. This book identifies issues at the heart of our country's most urgent problems. Fast food kills, but it also perpetuates bigotry and derails the American dream of equal opportunity and happiness for all. It leaves behind a wake of destruction creating millions of medically dependent and sickly people burdened with poor-quality lives. The solution hiding in plain sight — a nutrientdense healthful diet — can save lives and enable humans to reach their intellectual potential and achieve successful and fulfilling lives. Dr. Fuhrman offers a life-changing, scientifically sound approach that can alter American history and perhaps save your life in the process.

Winner of the Guild of Food Writers General Cookbook Award 2020 'A manual for living and a declaration of hope' Nigella Lawson 'A moving testimonial to the redemptive power of cooking. Generous, honest and uplifting' Diana Henry There are lots of ways to start a story, but this one begins with a chicken... When the world becomes overwhelming, Ella Risbridger focuses on the little things that bring her joy, like enjoying a glass of wine when cooking, FaceTiming with a friend whilst making bagels, and sharing recipes that are good for the soul. One night she found herself lying on her kitchen floor, wondering if she would ever get up – and it was the thought of a chicken, of roasting it, and of eating it, that got her to her feet and made her want to be alive. *Midnight Chicken* is a cookbook. Or, at least, you'll flick through these pages and find recipes so inviting that you will head straight for the kitchen: roast garlic and tomato soup, uplifting chilli-lemon spaghetti, charred leek lasagne, squash skillet pie, spicy fish finger sandwiches and burnt-butter brownies. It's the kind of cooking you can do a little bit drunk, that is probably better if you've got a bottle of wine open and a hunk of bread to mop up the sauce. But if you settle down and read it with a cup of tea (or a glass of that wine), you'll also discover that it's an annotated list of things worth living for – a manifesto of moments worth living for. This is a cookbook to make you fall in love with the world again. Featuring an entire chapter on storecupboard recipes.
