From the #1 New York Times bestselling author of *Eat to Live* and *The End of Diabetes*, an unflinching, provocative exploration of how our food is killing us and the ways in which we are unwitting participants in an unprecedented and exploding health crisis. Fast food is far more than just the burgers, fries, and burritos served at chain restaurants; it is also the toxic, human-engineered products found in every grocery store across America. These include: cold breakfast cereals; commercial and preserved (deli) meats and cheeses; sandwich breads and buns; chips, pretzels, and crackers;

fried foods; energy bars; and soft drinks. Fast foods have become the primary source of calories in the United States and consequently the most far-reaching and destructive influence on our population. The indisputable truth is that our highly processed diet is the source of a national health crisis that is exploding into a genocide with unseen tragic implications. Heart attacks, strokes, cancer, obesity, ADHD, autism, allergies, and autoimmune diseases all have the same root cause – our addiction to toxic ingredients. New York Times bestselling author, board-certified physician, nutritional researcher, and leading voice in the health field Joel Fuhrman, M.D., explains why the problem of poor nutrition

---

is deeper, more serious, and more pervasive than anyone imagined. Fast Food Genocide draws on twenty-five years of clinical experience and research to confront our fundamental beliefs about the impact of what we eat. This book identifies issues at the heart of our country's most urgent problems. Fast food kills, but it also perpetuates bigotry and derails the American dream of equal opportunity and happiness for all. It leaves behind a wake of destruction creating millions of medically dependent and sickly people burdened with poor-quality lives. The solution hiding in plain sight – a nutrientdense healthful diet – can save lives and enable humans to reach their intellectual potential

and achieve successful and fulfilling lives. Dr. Fuhrman offers a life-changing, scientifically sound approach that can alter American history and perhaps save your life in the process.

In this book, Susan Peirce Thompson, Ph.D. shares the groundbreaking weight-loss solution based on her highly acclaimed Bright Line Eating Boot Camps. Rooted in cutting-edge neuroscience, psychology, and

---

biology, Bright Line Eating explains why people who are desperate to lose weight fail again and again: it's because the brain blocks weight loss. Bright Line Eating (BLE) is a simple approach designed to reverse that process. By working with four "Bright Lines"—clear, unambiguous, boundaries—Susan Peirce Thompson shows us how to heal our brain and shift it into a mode where it is ready to shed pounds, release cravings, and stop sabotaging our weight loss goals. Best of all, it is a program that understands that willpower cannot be relied on, and sets us up to be successful anyway. Through the lens of Susan's own moving story, and those of her Bright Lifers, you'll discover firsthand why traditional diet and exercise plans have failed in the past. You'll also learn about the role addictive susceptibility plays in your personal weight-loss journey, where cravings come from, how to rewire your brain so they disappear, and more. Susan guides you through the phases of Bright Line Eating—from weight loss to maintenance and beyond—and offers a dynamic food plan that will work for anyone, whether you're vegan, gluten-free, paleo, or none of the above. Bright Line Eating frees us from the obesity cycle and introduces a radical plan for

---

sustainable weight loss. It ' s a game changer in a game that desperately needs changing.

Named a Best Cookbook of the Year by Martha Stewart Living "Magnificent illustrations add spirit to recipes and heartfelt narratives. Plan to buy two copies—one for you and one for your best foodie friend." —Taste of Home This collection of intimate, illustrated essays by some of America ' s most well – regarded literary writers explores how comfort food can help us cope with dark times—be it the loss of a parent, the loneliness of a move, or the pain of heartache.

Lev Grossman explains how he survived on " sweet, sour, spicy, salty, unabashedly gluey " General Tso ' s tofu after his divorce. Carmen Maria Machado describes her growing pains as she learned to feed and care for herself during her

twenties. Claire Messud tries to understand how her mother gave up dreams of being a lawyer to make " a dressed salad of tiny shrimp and avocado, followed by prune – stuffed pork tenderloin. " What makes each tale so moving is not only the deeply personal revelations from celebrated writers, but also the compassion and healing behind the story: the taste of hope. "If you've ever felt a deep, emotional connection to a recipe or been comforted by food during a dark time, you'll fall in love with these stories."—Martha Stewart Living " Eat Joy is the most lovely food essay book . . . This is the perfect gift." —Joy Wilson (Joy the Baker)

*The Jungle* Vintage

Acclaimed journalist and author of *The Dorito Effect* delivers a groundbreaking, entertaining, and informative work that reveals how our dysfunctional relationship with food began—and how science is leading us back to healthier living

---

and eating. If you have ever wondered, “How do I eat what’s good for me?” you are not alone. Innumerable diets have been tested and billions of dollars have been spent attempting to study and understand the simple act of consuming food. So, why aren’t we getting healthier? Why does the dysfunctional relationship between eating and overeating, prevent us from living well? What if the key to unlocking a new path to nutrition and health lies not in overcoming our destructive urges, but understanding them? Now, science writer Mark Schatzker explores these key questions and the future of eating by focusing on the way our brain’s powerful instinct to eat has been turned against itself. he takes us on a lively journey from the mountains of Italy to the Old South and inside brain scanning laboratories, to reveal new and fascinating information that will upend the way we see eating, craving, and body weight, including: —Our brains control body weight as effectively as it does body temperature, blood oxygen levels, and heart

rate—tracking the energy we consume and burn with greater precision than even scientists can —We are not programmed to crave endless calories, but rather to crave what we need —Our ability to sense sugar and fats has been altered due to technologies like artificial sweeteners, artificial fats, synthetic starches, and flavorings —This “mismatch” between the way food tastes and the nutrients it delivers has created an unnatural and heightened desire to eat —Ultimately, by “fortifying” our food with certain vitamins, as we do with livestock, we have supercharged the caloric potential of what we eat and have unwittingly enabled obesity Blending conventional wisdom, historical research, and cutting-edge science, *The End of Craving* reveals a new and radical truth: our natural urges are not primitive. Nor are they harmful. Only by restoring the relationship between the flavor of food and the nutrition it provides can we hope to change our eating habits and overall health, leading to longer and happier lives.

## *Becoming Sugar-Free* National Geographic Books

Why do some people age in failing health and sadness, while others grow old with vitality and joy? In this revolutionary book, bestselling author John Robbins presents us with a bold new paradigm of aging, showing us how we can increase not only our lifespan but also our health span. Through the example of four very different cultures that have the distinction of producing some of the world's healthiest, oldest people, Robbins reveals the secrets for living an extended and fulfilling life in which our later years become a period of wisdom, vitality, and happiness. From Abkhazia in the Caucasus south of Russia, where age is beauty, and Vilcabamba in the Andes of South America, where laughter is the greatest medicine, to Hunza in Central Asia, where dance is ageless, and finally the southern Japanese islands of Okinawa, the modern

Shangri-la, where people regularly live beyond a century, Robbins examines how the unique lifestyles of these peoples can influence and improve our own. Bringing the traditions of these ancient and vibrantly healthy cultures together with the latest breakthroughs in medical science, Robbins reveals that, remarkably, they both point in the same direction. The result is an inspirational synthesis of years of research into healthy aging in which Robbins has isolated the characteristics that will enable us to live long and—most important—joyous lives. With an emphasis on simple, wholesome, but satisfying fare, and the addition of a manageable daily exercise routine, many people can experience great improvement in the quality of their lives now and for many years to come. But perhaps more surprising is Robbins' discovery that it is not diet and exercise alone that helps people to live well past one hundred. The quality of

---

personal relationships is enormously important. With startling medical evidence about the effects of our interactions with others, Robbins asserts that loneliness has more impact on lifespan than such known vices as smoking. There is clearly a strong beneficial power to love and connection.

*The Joyful Vegan* Simon and Schuster Winner of the Guild of Food Writers General Cookbook Award 2020 'A manual for living and a declaration of hope' Nigella Lawson 'A moving testimonial to the redemptive power of cooking. Generous, honest and uplifting' Diana Henry There are lots of ways to start a story, but this one begins with a chicken... When the world becomes overwhelming, Ella Risbridger focuses on the little things that bring her joy, like

enjoying a glass of wine when cooking, FaceTiming with a friend whilst making bagels, and sharing recipes that are good for the soul. One night she found herself lying on her kitchen floor, wondering if she would ever get up – and it was the thought of a chicken, of roasting it, and of eating it, that got her to her feet and made her want to be alive. *Midnight Chicken* is a cookbook. Or, at least, you'll flick through these pages and find recipes so inviting that you will head straight for the kitchen: roast garlic and tomato soup, uplifting chilli-lemon spaghetti, charred leek lasagne, squash skillet pie, spicy fish finger sandwiches and burnt-butter brownies. It's the kind of cooking you

---

can do a little bit drunk, that is probably better if you've got a bottle of wine open and a hunk of bread to mop up the sauce. But if you settle down and read it with a cup of tea (or a glass of that wine), you'll also discover that it's an annotated list of things worth living for – a manifesto of moments worth living for. This is a cookbook to make you fall in love with the world again. Featuring an entire chapter on storecupboard recipes. Artful Eating will take you on a journey filled with stories, life lessons, practical tools and strategies all rooted in the most up to date scientific and psychological research. Learn how to reprogram your mind to lose weight and achieve the body you desire, by changing your thoughts, behaviours and approach to pleasure. Successful weight loss is not about what you eat, it's about why and how you eat. We are missing the most vital ingredient in the weight loss battle: the mind. It is our mind that fuels every decision we make about food and by focusing solely on the

---

symptom, the excess weight, we have lost sight of the cause. There is no strenuous exercise regime, no food elimination, no strict meal plan, just powerful psychological tools and strategies which will create lasting change. You will be amazed at how easy it is to achieve the body you desire and truly deserve.

The perfect gift! A specially priced, beautifully designed hardcover edition of The Joy of the Gospel with a foreword by Robert Barron and an afterword by James Martin, SJ. “The joy of the gospel fills the hearts and lives of all who encounter Jesus... In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization

marked by this joy, while pointing out new paths for the Church’s journey in years to come.” – Pope Francis This special edition of Pope Francis’s popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he emphasizes the importance of service to God and all his creation. Advocating for “the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned,” the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally.

Ultimately, Pope Francis demonstrates how to develop a more personal relationship with Jesus Christ, “to recognize the traces

---

of God's Spirit in events great and small." Profound in its insight, yet warm and accessible in its tone, *The Joy of the Gospel* is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of *Catholicism: A Journey to the Heart of the Faith* and James Martin, SJ, author of *Jesus: A Pilgrimage*
