The blinkards Michigan State University Press

Equal access to education is an important American ideal, yet for many years it has been unavailable to a large number of Americans living in impoverished communities. Biddle gives an insightful progress report on today's educational system.

Lonely Days Routledge

This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK.

The Horn of My Love Brousson Press

A colorful holiday picture book, which captures the festivities, traditions, and excitement of Easter in Lagos, a modern African city. It's Easter Sunday in Lagos. People are excited and celebrating. But Eyitomi misses her Grandma. In a heartfelt letter, she gives her grandmother Seven Reasons Why She Should Spend her Next Easter in Lagos. But Mummy and Daddy have a surprise of their own. Readers of all ages will love reading a little girl's account of what makes Easter in Lagos truly special. Follow the events of Holy Week, including Easter Thursday and Good Friday, up till the grand finale: Easter Sunday or Resurrection Sunday. There is also a reference to Palm Sunday, which is celebrated the week before Easter Sunday. This storybook celebrates the enduring bonds of love between grandparents and grandchildren and shows how people connect with family during special holidays. Children will discover the joy of letter writing as a way of connecting with family especially during special holidays and will be inspired to write letters of their own. Don't miss Christmas in Lagos, the first book in the Nigerian Holidays series of picture books, by the same author with vibrant artwork by the same illustrator. Perfect for preschoolers, kindergarten children, toddlers, early readers.

The Woman Wails! Harlequin

In an effort to improve student achievement, thousands of US schools have adopted school reform models devised externally by universities and other organizations. Such models have been successful in improving individual schools or groups of schools, but what happens when educational reform attempts to extend from one school to many? Through qualitative data from several studies, this book explores what happens when school reform 'goes to scale'. Topics covered include: *why and how schools are adopting reforms *the influence of the local context and wider constraints on the implementation of reform *teachers and principals as change agents in schools *the evolution of reform design teams *the implementation, sustainability and expiration of reform, and its impact on educational change Each chapter concludes with guidelines for policy and practice. This book will be of interest to educational leaders and staff developers, educational researchers and policy makers, in the US and internationally.

interface.

Nonlinear Dynamics and Chaos with Applications to Hydrodynamics and Hydrological Modelling Wipf and Stock Publishers

The present volume draws on the experience of the Workshop held in Benin City, Nigeria in May 2018, where doctoral students and experienced mentors met to work on their journal articles from a simple abstract or a first draft to a concrete publication proposal. Since research articles are the most important academic texts in academic careers today, young African scholars must practice to choose current topics, to use appropriate methodologies and argumentation structures, to draw tentative conclusions, and to be aware of limitations and further research necessary in their field. Mentors can advise them to apply proper statistical procedures, to edit their texts carefully and to submit them in acceptable format to appropriate journals. The contributions can also serve as a general model for open and critical international and intercultural academic discourse on publishing research articles in international journals.

Easter in Lagos University of Michigan Press

A team of researchers from 35 states across the country developed a survey designed to create a snapshot of social studies teaching and learning in the United States. With over 12,000 responses, it is the largest survey of social studies teachers in over three decades. We asked teachers about their curricular goals, their methods of instruction, their use of technology, and the way they address the needs of English language learners and students with disabilities. We gathered demographic data too, along with inquiries about the teachers' training, their professional development experiences, and even whether they serve as coaches. The enormous data set from this project was analyzed by multiple research teams, each with its own chapter. This volume would be a valuable resource for any professor, doctoral student, or Master 's student examining the field of social studies education. It is hard to imagine a research study, topical article, or professional development session concerning social studies that would not quote findings from this book about the current status of social studies. With chapters on such key issues as the teaching of history, how teachers address religion, social studies teachers ' use of technology, and how teachers adapt their instruction for students with disabilities or for English language learners, the book 's content will immediately be relevant and useful.

Unexpected Joy at Dawn Cuvillier Verlag

Assessment is a concept familiar across the field of education and is inherent to the work of professors, administrators, teachers, researchers, journalists, and scholars. A multifaceted and politically charged topic, assessment ranges from informal interactions with learners in classrooms to systematic high-stakes testing and examination. Written by a leading expert on assessment, this book situates the topic within the broader context of educational psychology research and theory and brings it to a wider audience. With chapters on the fundamentals of assessment, explanations of its uses, and advice for best application, this concise volume is designed for any education course that includes assessment in the curriculum. It will be indispensable for student researchers and both pre- and in-service teachers alike.

Japanese Cybercultures Routledge

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Continuous Assessment Routledge

Japan is rightly regarded as one of the most technologically advanced countries in the world, yet the development and deployment of Internet technology in Japan has taken a different trajectory compared with Western nations. This is the first book to look at the specific dynamics of Japanese Internet use. It examines the crucial questions: * how the Japanese are using the Internet: from the prevalence of access via portable devices, to the fashion culture of mobile phones * how Japan's "cute culture" has colonized cyberspace * the role of the Internet in different musical subcultures * how different men's and women's groups have embraced technology to highlight problems of harassment and bullying * the social, cultural and political impacts of the Internet on Japanese society * how marginalized groups in Japanese society - gay men, those living with AIDS, members of new religious groups and Japan's hereditary sub-caste, the Burakumin - are challenging the mainstream by using the Internet. Examined from a variety of interdisciplinary perspectives, using a broad range of case-studies, this is an exciting and genuinely cutting-edge book which breaks new ground in Japanese studies and will be of value to anyone interested in Japanese culture, the Internet and cyberculture.

Issues in Upper Secondary Science Education Routledge

This volume offers 17 essays on the apocryphal/deuterocanonical books of Ben Sira (Ecclesiasticus) and Tobit. Four essays explore Tobit ' s connections with Genesis (Irene Nowell), Job (Anathea Portier-Young), Psalms (Stephen Ryan), and the New Testament (Vincent Skemp), with a fifth considering the medieval Hebrew and Aramaic Tobit texts (Loren Stuckenbruck and Stuart Weeks). Five further essays examine Ben Sira ' s links with Genesis (Maurice Gilbert), Exodus (Friedrich Reiterer), Kings (Pancratius Beentjes), Prophets (Leo Perdue), and Proverbs (Jeremy Corley). Seven more essays on Ben Sira refer to the patriarch Joseph (Robert Hayward), Ezra (Michael Duggan), fear of God (Renate Egger-Wenzel), Qoheleth (Edward Owens), First Enoch (Benjamin Wright), Letter of James (N ú ria Calduch-Benages), and Matthew ' s Gospel (James Aitken).
