new life-giving treatments but may also raise troubling, even life-and-death, quandaries. Society's Choices discusses ways for people to handle today's bioethics issues in the context of America's unique history and culture—and from the perspectives of various interest groups. The book explores how Americans

have grappled with specific aspects of bioethics through commission deliberations, programs by organizations, and other mechanisms and identifies criteria for evaluating the outcomes of these efforts. The committee offers recommendations on the role of government and professional societies, the function of commissions and

institutional review boards, and bioethics in health professional education and research. The volume includes a series of 12 superb background papers on public moral discourse, mechanisms for handling social and ethical dilemmas, and other specific areas of controversy by well-known experts Ronald Bayer, Martin Benjamin, Dan

W. Brock, Baruch A. Brody, H. Alta Charo, Lawrence Gostin, Bradford H. Gray, Kathi E. Hanna, Elizabeth Heitman, Thomas Nagel, Steven Shapin, and Charles M. Swezey.

High School Students Tackle Citizenship Test Encounter Books Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to

ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic

science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and

organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators. CHANGDER
OUTLINE
2004 marks the
fiftieth
anniversary of
the Supreme
Court's
unanimous
decision to end
segregation in
public schools.
Many people
were elated when
Supreme Court
Chief Justice Earl

Warren delivered
Brown v. Board of
Education of
Topeka in May
1954, the ruling
that struck down
state-sponsored
racial segregation
in America's
public schools.
Thurgood
Marshall, chief
attorney for the
black families that
launched the
litigation,
exclaimed later, "I
was so happy, I
was numb." The
novelist Ralph
Ellison wrote,
"another battle of
the Civil War has
been won. The
rest is up to us
and I'm very glad.
What a wonderful
world of
possibilities are
unfolded for the
children!" Here, in
a concise, moving
narrative,

Bancroft Prize-
winning historian
James T.
Patterson takes
readers through
the dramatic case
and its fifty-year
aftermath. A wide
range of
characters
animates the
story, from the
little-known
African
Americans who
dared to challenge
Jim Crow with
lawsuits (at great
personal cost); to
Thurgood
Marshall, who
later became a
Justice himself; to
Earl Warren, who
shepherded a
fractured Court to
a unanimous
decision. Others
include
segregationist
politicians like
Governor Orval
Faubus of

Arkansas; Presidents Eisenhower, Johnson, and Nixon; and controversial Supreme Court justices such as William Rehnquist and Clarence Thomas. Most Americans still see Brown as a triumph--but was it? Patterson shrewdly explores the provocative questions that still swirl around the case. Could the Court--or President Eisenhower--have done more to ensure compliance with Brown? Did the decision touch off the modern civil rights movement? How useful are court-ordered

busing and affirmative action against racial segregation? To what extent has racial mixing affected the academic achievement of black children? Where indeed do we go from here to realize the expectations of Marshall, Ellison, and others in 1954?

The Challenge of Democracy is well-known for its exploration of two themes: the conflicting values of freedom, order, and equality and

the majoritarianism vs. pluralism debate. In addition, a focus on globalization and its implications helps students put American government in a broader context. Current coverage includes the latest developments in American Government, including the results of key races in the 2006 mid-term election. Student Achievement Series: The Challenge of Democracy is an innovative text and part of a

program developed in partnership with teachers and students to meet the learning, study, and assessment goals necessary for student success. Through extensive research and focus groups conducted with a diverse cross-section of students, Houghton Mifflin presents a groundbreaking solution for skills mastery, understanding, and retention. Feedback from students has been instrumental in

all aspects of development--from design and pedagogy to testing and assessment to title and packaging. These elements culminate in a textbook program that reflects the way students learn and study best. As with all texts in the Student Achievement Series, The Challenge of Democracy incorporates concise, to-the-point coverage; eliminates extraneous material; integrates pedagogy that reinforces key

concepts; features a strong, supporting web component for review, testing, and assessment purposes; and provides students with real value for their educational dollar.
