The enemy were overpowered and took to flight. The Romans pursued as far as their strength enabled them to run' Between 58 and 50 BC Julius Caesar conquered most of the area now covered by France, Belgium and Switzerland, and invaded Britain twice, and The Conquest of Gaul is his record of these campaigns. Caesar's narrative offers insights into his military strategy and paints a fascinating picture of his encounters with the inhabitants of Gaul and Britain, as well as lively portraits of the rebel leader Vercingetorix and other Gallic chieftains. The Conquest of Gaul can also be read as a piece of political propaganda, as Caesar sets down his version of events for the Roman public, knowing he faces civil war on his return to Rome. Revised and updated by Jane Gardner, S. A. Handford's translation brings Caesar's lucid and exciting account to life for modern readers. This volume includes a glossary of persons and places, maps, appendices and suggestions for further reading.

Lost in a dark wood like Dante, Nicholas Hagger tells the story of his search for meaning, purpose and truth that took him to Iraq and Japan, and encounters with Zen and China's Cultural Revolution, which he was the first to discover. In Libya, then a Cold-War battleground, he began four years' service and a double life as an undercover British intelligence agent (here revealed for the first time). He witnessed Gaddafi's Egyptian/Soviet-backed coup, and its terrifying aftermath tore into his personal life, plunged him into a Dark Night of the Soul and faced him with execution. He went on to serve in London as Prime Minister Edward Heath's "unofficial Ambassador" to the African liberation movements at the height of Soviet and Chinese expansion in Africa during the

Cold War. Despite being routinely followed by surveillance squads he found Reality on a 'Mystic Way' of loss, purgation and illumination. He now perceived the universe as a unity, and had 16 experiences of the metaphysical Light.

How rhetorical training influenced deeds as well as words in the Roman Empire The assassins of Julius Caesar cried out that they had killed a tyrant, and days later their colleagues in the Senate proposed rewards for this act of tyrannicide. The killers and their supporters spoke as if they were following a well-known script. They were. Their education was chiefly in rhetoric and as boys they would all have heard and given speeches on a ubiquitous set of themes—including one asserting that “ he who kills a tyrant shall receive a reward from the city. ” In *That Tyrant, Persuasion*, J. E. Lendon explores how rhetorical education in the Roman world influenced not only the words of literature but also momentous deeds: the killing of Julius Caesar, what civic buildings and monuments were built, what laws were made, and, ultimately, how the empire itself should be run. Presenting a new account of Roman rhetorical education and its surprising practical consequences, *That Tyrant, Persuasion* shows how rhetoric created a grandiose imaginary world for the Roman ruling elite—and how they struggled to force the real world to conform to it. Without rhetorical education, the Roman world would have been unimaginably different.

"The Landmark *Julius Caesar* is the definitive edition of the complete works of Julius Caesar, offering an unprecedented view into the life and career of one of the greatest statesmen and military commanders in the ancient world. Between 58 and 50 B.C., Caesar led his army to twice invade Britain and conquer most of the land that is now France, Belgium, and Switzerland. The Gallic War, Caesar's firsthand account of his campaigns, offers a record of his travels and insights into military strategy. It also served another purpose: to present the Roman public with a portrait of Caesar as a compelling, effective leader, which would be a key part of his public image as he fought off his rivals for control of the empire. The Civil War is Caesar's subsequent chronicle of his struggle to rule, from his crossing of the Rubicon in 49 B.C. through the death of his chief rival, Pompey, and the ongoing efforts of Pompey's heirs and followers to remove Caesar from power.

Accompanying Caesar's commentaries are three essential additional works, *The Alexandrian War*, *The African War*, and *The Spanish War*, which together provide a comprehensive picture of the far-reaching military conquests that would concentrate unparalleled power and influence in the hands of the Roman dictator. With elegant new translations by Kurt A. Raaflaub, this volume includes detailed annotations, appendices, color maps, and illustrations to place the narratives in their historical and political context. Lively, accessible, and assembled with rigorous scholarship, *The Landmark Julius Caesar* is an indispensable resource for history buffs and fans of the classics"--

Teachers' knowledge of the subjects they teach has been of enduring interest to governments, the profession and the wider society. In this book, Viv Ellis traces the development of three beginning teachers thinking about their subject knowledge in the context of Standards-based teacher education and the practice of auditing student teachers' subject knowledge. Ellis puts forward a theory of subject knowledge development that moves on from the objectivist and individualistic epistemologies associated

with Standards and the practices of auditing to more a contextualist and sociocultural understanding of teachers' cognition and learning. An important implication of this study is that if teacher education wishes to have greater impact on the development of beginning teachers, teacher educators need to pay greater attention to the schools and subject department settings in which these beginning teachers learn. *200 Plays for GCSE and A-Level Performance* Longman Publishing Group

abstract: This term paper deals with gender in William Shakespeare's drama "Julius Caesar". With only two women in the whole play, the Rome depicted in Shakespeare's Julius Caesar can certainly be described as a very male dominated world. The female characters Calpurnia and Portia are absent for most of the play, and when they do appear, they do so in a domestic context.

Despite their strong personalities and intelligence, they are disregarded and ignored by their husbands. Women are thought unfit to get involved in politics, as they are seen as weak and overly emotional creatures that cannot think as rationally as men, who are presented as their binary opposites.

Furthermore, concepts and understandings of masculinity play a crucial role in Julius Caesar as they strongly influence how male characters behave and what decisions they make during the course of the play.
