Jade Snow Wong's autobiography portrays her coming-of-age in San Francisco's Chinatown, offering a rich depiction of her immigrant family and her strict upbringing, as well as her rebellion against family and societal expectations for a Chinese woman. Originally published in 1950, *Fifth Chinese Daughter* was one of the most widely read works by an Asian American author in the twentieth century. The US State Department even sent its charismatic young author on a four-month speaking tour

throughout Asia. Cited as an influence by prominent Chinese American writers such as Amy Tan and Maxine Hong Kingston, *Fifth Chinese Daughter* is a foundational work in Asian American literature. It was written at a time when few portraits of Asian American life were available, and no similar works were as popular and broadly appealing. This new edition includes the original illustrations by Kathryn Uhl and features an introduction by Leslie Bow, who critically examines the changing reception and enduring legacy of the book and offers insight into Wong 's life as an artist and an ambassador of Chinese American culture.

“ African literature is incomplete and unthinkable without the works of Chinua Achebe. ” —Toni Morrison
Nominated as one of America ’ s best-loved novels by PBS ’ s The Great

American Read Things Fall Apart is the first of three novels in Chinua Achebe's critically acclaimed African Trilogy. It is a classic narrative about Africa's cataclysmic encounter with Europe as it establishes a colonial presence on the continent. Told through the fictional experiences of Okonkwo, a wealthy and fearless Igbo warrior of Umuofia in the late 1800s, Things Fall Apart explores one man's futile resistance to the devaluing of his Igbo traditions by British political and religious forces and his despair as his community capitulates to the powerful new order. With more than 20 million copies sold and translated into fifty-seven languages, Things Fall Apart provides one of the most illuminating and permanent monuments to African

experience. Achebe does not only capture life in a pre-colonial African village, he conveys the tragedy of the loss of that world while broadening our understanding of our contemporary realities.

Outstanding Academic Books Grading is one of the thorniest issues writing teachers must deal with, yet, surprisingly little has been written on this topic. As writing teachers move increasingly toward practices that focus on writing as a process, they face a growing need to reconsider their systems of grading to determine whether or not these systems support their pedagogies.

The authors interrogate the grading of individual papers as well as portfolios and the assigning of end-of-term grades. This collection explores the issues and problems that have emerged as conventional grading practices have lagged behind and been challenged by new theories of language. While the book will be of interest to theorists, Zak and Weaver have also made the book relevant and useful to teachers whose primary interest is the practical consequences of theory in their classrooms. Where theoretical discussion takes place, the language is clear and accessible. Many of the authors write directly from personal experience, telling stories of the classroom or writing of new techniques and approaches they have tried. They speak with the

voices of teachers, and the tone and content of their words convey a sense of the immediacy of the topic.

Kingston ’ s sense of self emerges in the mystifying gaps in these stories, which she learns to fill with stories of her own.
