Opening Credit BPP Learning Media

As a result of prevailing monetary conditions since the global financial crisis, the world has witnessed unprecedented growth in global corporate credit markets. Yet, despite the trillions of dollars put to work in the debt capital markets, corporate credit is still an unfamiliar concept to most investors compared to other asset classes, such as equities and commodities. Every red-top newspaper and 24-hour news service is happy to report the latest twitch in the Dow, FTSE or Stoxx indices but momentous moves in the iBoxx or iTraxx go unmentioned. And whereas many a talking head is happy to pose as an equity analyst, few feel comfortable venturing into the arcana of credit. Yet the corporate credit market, as the authors of this new book show, is both materially larger than its equity peer and has shown more attractive risk/reward characteristics over the last 90-odd years. In *Opening Credit*, career credit professionals, Justin McGowan and Duncan Sankey, aim to redress this by drawing on their more than 50 years' collective experience in the field to elucidate a practitioner's approach to corporate credit investment. Whilst explaining the basics of traditional credit analysis and affirming its value, McGowan and Sankey also caution against its shortcomings. They demonstrate the need both to penetrate the veil of accounting to get to the economic reality behind the annuals and interim numbers and to analyse the individuals that drive them - the key executives and board members.

---

They employ a range of cogent and easy-to-follow case studies to illustrate the value of their executive- and governance-led approach, which places management front and centre in understanding corporate credit. Opening Credit will appeal to all those seeking a better understanding of corporate credit, including analysts looking to develop their skills, fund managers (especially those with an eye to SRI), bankers, IFAs, financial journalists, academics and students of finance.

MCQ Commerce Book Springer Nature

ASC 606, Revenue from Contracts with Customers, replaces almost all previously existing revenue recognition guidance, including industry-specific guidance. That means unprecedented changes, affecting virtually all industries and all size organizations. For preparers, this guide provides the comprehensive, reliable accounting implementation guidance you need to unravel the complexities of this new standard. For practitioners, it provides in-depth coverage of audit considerations, including controls, fraud, risk assessment, and planning and execution of the audit. Recent audit challenges are spotlighted to allow for planning in avoiding these new areas of concern. This guide includes 16 industry-specific chapters for the following industries: Aerospace and Defense, Airlines, Asset Management, Broker-Dealers, Construction Contractors, Depository Institutions, Gaming, Health Care, Hospitality, Insurance, Not-for-Profits, Oil and Gas, Power and Utility, Software, Telecommunications, and Timeshare.

Financial Accounting for M.Com Entrance Examination Springer

Issues in Financial Accounting addresses the controversial issues in financial accounting that have been debated by the preparers, users, auditors and regulators of financial statements. Henderson provides the best balance of technical and theoretical coverage in any Financial Accounting text on the market today, with its presentation of real-world examples, current debates and the underlying rationale for the accounting concepts demonstrated.

Throughout the text, academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting. The new 15th edition covers significant recent developments to the accounting standards in Australia and is based on the AASB standards and interpretations that have been issued up to the end of 2012. This includes the Australian Accounting Standard Board's (AASB) program of changes to make accounting standards equivalent to International Financial Reporting Standards.

Written by two experts in the field, Business Law provides practical, up-to-date coverage of company, partnership, taxation, and insolvency law, plus all relevant aspects of EU law. The manual provides all of the relevant material students need to understand the latest legal developments affecting business law transactions. Coverage of the Companies Act 2006 is fully integrated and given prominence, mirroring the emphasis that business law courses place on this central piece of legislation. Additional emphasis has been placed on taxation and business accounts. Examples are used throughout the manual enabling

students to contextualize their learning effectively. Extensive and updated statutory references allow students both to cross-reference to appropriate primary sources, and to use the guide to interpret such sources. The book's depth of coverage, accessible format and clear structure make it an ideal reference for students on the Legal Practice Course. Online Resource Centre A free Online Resource Centre provides a range of student learning activities which guide students through scenarios based on topics in the book. Three additional online chapters are also available covering: - Competition law in the European Union and the United Kingdom. - The right of establishment, the right to provide services, and the free movement of goods. - Business contracts - agency or distributorship agreements.

FIA Foundations in Taxation FTX FA2015 Innovative Institute

Financial accounting theory has numerous practical applications and policy implications, for instance, international accounting standard setters are increasingly relying on theoretical accounting concepts in the creation of new standards; and corporate regulators are increasingly turning to various conceptual frameworks of accounting to guide regulation and the interpretation of accounting practices. The global financial crisis has also led to a new found appreciation of the social, economic and political importance of accounting concepts generally and corporate financial reporting in particular. For instance, the fundamentals of capital market theory (i.e. market efficiency) and measurement theory (i.e. fair value) have received widespread public and regulatory attention. This comprehensive, authoritative volume provides a prestige reference work which offers students, academics, regulators and practitioners a valuable resource containing the current scholarship and practice in the established field of financial accounting theory.

Accounts being a tough practical subject, students find it difficult to keep up

with the theoretical concepts and practical problems at the same time. There

remains a need for the book which helps students practice ample problems

on every topic and be exam ready. Keeping this in mind, the authors present

Problems and Solutions in Accounting to cater to the needs of CA

Intermediate students appearing for Group-I, Paper 1: Accounting as per the

new syllabus scheme of ICAI. The book has been neatly organised into

Sections and Sub-sections each dedicated to fundamental topics of

Accounting. For easy, navigation through a chapter, the number of problems

dedicated to a topic and the type of problems covered have been listed in

detail at the beginning. Salient Features: Content is strictly aligned to the

topical flow as guided by the syllabus of ICAI. Coverage of Questions from

RTPs and MTPs of ICAI examination. Thoroughly updated content

includes latest changes in Accounting and the Companies Act, 2013.

Questions from previous year ICAI examinations, Revisionary Test Papers

(RTPs), Mock Test Papers (MTPs), and other professional bodies have been

incorporated to provide enhanced understanding and extensive practice to

the students. Each chapter is further subdivided in various sections to

develop the concepts in a methodical manner.
