On 4 August 1914, Britain declared war on Germany, and entered the First World War. It may be tempting to view the conflict as inevitable, or to see British intervention as unavoidable, but the truth was not so simple. Britons had long loathed the prospect of a continental war, and were assured that their nation had a free hand in Europe. Yet, in the first days of August, the debate abruptly changed. This was not simply a question of war, the British Government insisted. Instead, it was a matter of honour. If Britain stayed neutral, her friends would never trust her again; the country's prestige would plummet; the national honour would be destroyed. 'National honour,' David Lloyd George proclaimed, 'is a reality, and any nation that disregards it is doomed!' What did these ideas mean, and why did they resonate so effectively with the British public? As Twamley details in this study – based on his award-winning masters' dissertation – the importance of national honour to the decision-makers of 1914 has been largely overlooked. It is now time to address such shortcomings in the debate, and to place Britain's pivotal decision for war in its proper cultural and ideological context.

Dialogue on Partition explores dialogic possibilities in Indo-Pak English novels on partition of India in 1947 and expounds upon the potential of art and literature to offer dialogue. The book locates the inherent individualities of voices of narrators, characters and writers of these novels, as promulgators of dialogue in the face of the contentious event of partition and post-partition conflict. The book shows how the authors of these novels objectify their religious stance and present a regional affiliation attributed to a shared existence in the subcontinent, while locating and dissecting shared symbols, regional fraternity, sufi and mystic eclecticism and diversity of heteroglot and polyphonic voices in the chronotopal space and time of partition. The objective of the book is to critique the role of Indo-Pak novels in propagating dialogue, thereby proposing ways of reducing fissures implanted in the psycho-social terrain of the inhabitants of the region by offering junctures within the literary domain. Thus, the book expounds upon how these novels may be perceived as tools of integration between sects, races and nations at large. It can aid in opening borders to shared art and literature which inherently engenders response and dialogue leading to possibilities of coalition and integration. The Kurdish Question: Identity, Representation and the Struggle for Self-Determination by Mocktime Publication

The indistinct status of the Zainichi has meant that, since the late 1940s, two ethnic Korean associations, the Chongryun (pro-North) and the Mindan (pro-South) have been vying for political loyalty from the Zainichi, with both groups initially opposing

their assimilation in Japan. Unlike the Korean diasporas living in Russia, China or the US, the Zainichi have become sharply divided along political lines as a result. Myung Ja Kim examines Japan's changing national policies towards the Zainichi in order to understand why this group has not been fully integrated into Japan. Through the prism of this ethnically Korean community, the book reveals the dynamics of alliances and alignments in East Asia, including the rise of China as an economic superpower, the security threat posed by North Korea and the diminishing alliance between Japan and the US. Taking a post-war historical perspective, the research reveals why the Zainichi are vital to Japan's state policy revisionist aims to increase its power internationally and how they were used to increase the country's geopolitical leverage. With a focus on International Relations, this book provides an important analysis of the mechanisms that lie behind nation-building policy, showing the conditions controlling a host state's treatment of diasporic groups.

Boko Haram is now the deadliest 'terrorist' organization operational in the world, by virtue of the sheer number of people the group have killed. Together with al-Shabaab, the two groups account for a substantial amount of carnage on the African continent. Analyzed here are the ideologies of these two infamous organizations. Utilizing information from breadcrumbs that they leave behind, in videos, media releases and various correspondence, this book searches for clues within the historical and contemporary social context that explain their existence. It explores the ideological roots the two organizations share and examines the goals and objectives of each group in order to calculate the nature of the threat posed in the broader international realm. It is argued that through applying strategic theory,

and specifically the concept of strategic terrorism, it is possible to form a deeper understanding of two of the most dangerous militant organizations in operation today.

Towards an Imperfect Union Bloomsbury Publishing
The heart-pounding history of how Pope Pius XII -- often labeled "Hitler's Pope" -- was in fact an anti-Nazi spymaster, plotting against the Third Reich during World War II. The Vatican's silence in the face of Nazi atrocities remains one of the great controversies of our time. History has accused wartime pontiff Pius the Twelfth of complicity in the Holocaust and dubbed him "Hitler's Pope." But a key part of the story has remained untold. Pope Pius in fact ran the world's largest church, smallest state, and oldest spy service. Sainly but secretive, he sent birthday cards to Hitler -- while secretly plotting to kill him. He skimmed from church charities to pay covert couriers, and surreptitiously tape-recorded his meetings with top Nazis. Under his leadership the Vatican spy ring actively plotted against the Third Reich. Told with heart-pounding suspense and drawing on secret transcripts and unsealed files by an acclaimed author, *Church of Spies* throws open the Vatican's doors to reveal some of the most astonishing events in the history of the papacy. Riebling reveals here how the world's greatest moral institution met the greatest moral crisis in history.

Since the late 1960s, the novels of Sjöwall and Wahlöö's Martin Beck detective series, along with the works of Henning Mankell, Håkan Nesser and Stieg Larsson, have sparked an explosion of Nordic crime fiction--grim police procedurals treating urgent

sociopolitical issues affecting the contemporary world. Steeped in noir techniques and viewpoints, many of these novels are reaching international audiences through film and television adaptations. This reference guide introduces the world of Nordic crime fiction to English-speaking readers. Caught between the demands of conscience and societal strictures, the detectives in these stories--like the heroes of Norse mythology--know that they and their world must perish, but fight on regardless of cost. At a time of bleak eventualities, Nordic crime fiction interprets the bitter end as a celebration of the indomitable human spirit.

Study of the Cold War all too often shows us the war that wasn't fought. The reality, of course, is that many "hot" conflicts did occur, some with the great powers' weapons and approval, others without. It is this reality, and this period of quasi-war and semiconflict, that Jonathan M. House plumbs in *A Military History of the Cold War, 1962-1991*, a complex case study in the Clausewitzian relationship between policy and military force during a time of global upheaval and political realignment. This volume opens a new perspective on three fraught decades of Cold War history, revealing how the realities of time, distance, resources, and military culture often constrained and diverted the inclinations or policies of world leaders. In addition to the Vietnam War and nuclear confrontations between the USSR and the United States, this period saw dozens of regional wars and insurgencies fought throughout Asia, Africa, and Latin America. Cuba, Pakistan, Indonesia, Israel, Egypt, and South Africa pursued their own goals in ways that drew the superpowers into regional disputes. Even clashes ostensibly unrelated to the politics of East-West confrontation, such as the Nigerian-Biafran conflict, the Falklands/Malvinas War, and the Indonesian occupation of East Timor, involved armed forces, weapons, and tactics developed for the larger conflict and thus come under House's scrutiny. His study also takes up nontraditional or specialized aspects of the period, including weapons of mass destruction, civil-military relations, civil defense, and control of domestic disorders. The result is a single, integrated survey and analysis of a complex period in geopolitical history, which fills a significant gap in our knowledge of the organization, logistics, operations, and tactics involved in conflict throughout the Cold War.

Environmental History of Modern India Oxford University Press

"Throughout our Cherokee history," writes Joyce Dugan, former principal chief of the Eastern Band of Cherokee Indians, "our ancient stories have been the essence of who we are." These traditional stories embody the Cherokee concepts of Gadugi, working together for the good of all, and Duyvhta, walking the right path, and teach listeners how to understand and live in the world with reverence for all living things. In *Eastern Cherokee Stories*, Sandra Muse Isaacs uses the concepts of Gadugi and Duyvhta to explore the Eastern Cherokee oral tradition, and to explain how storytelling in this tradition—as both an ancient and a contemporary literary form—is instrumental in the perpetuation of Cherokee identity and culture. Muse Isaacs worked among the Eastern Cherokees of North Carolina, recording stories and documenting storytelling practices and examining the Eastern Cherokee oral tradition as both an ancient and contemporary literary form. For the descendants of those Cherokees who evaded forced removal by the U.S. government in the 1830s, storytelling has been a vital tool of survival and resistance—and as Muse Isaacs shows us, this remains true today, as storytelling plays a powerful role in motivating and educating tribal members and others about contemporary issues such as land reclamation, cultural regeneration, and language revitalization. The stories collected and analyzed in this volume range from tales of creation and origins that tell about the natural world around the homeland, to post-Removal stories that often employ Native humor to present the Cherokee side of history to Cherokee and non-Cherokee alike. The persistence of this living oral tradition as a means to promote nationhood and tribal sovereignty, to revitalize culture and language, and to present the Indigenous view of history and the land bears testimony to the tenacity and resilience of the

Cherokee people, the Ani-Giduwah.

This multi-disciplinary collection brings together work by scholars from Britain, America and Canada on the popular, personal and institutional histories of pregnancy. It follows the process of reproduction from conception and contraception, to birth and parenthood. The contributors explore several key themes: narratives of pregnancy and birth, the patient-consumer, and literary representations of childbearing. This book explores how these issues have been constructed, represented and experienced in a range of geographical locations from the seventeenth to the twentieth century. Crossing the boundary between the pre-modern and modern worlds, the chapters reveal the continuities, similarities and differences in understanding a process that is often, in the popular mind-set, considered to be fundamental and unchanging.

Gardner examines the causes and consequences of Russia's annexation of Crimea. By analyzing alliance formations and the consequences of other annexations in world history, the book urges an alternative US-NATO-European-Japanese strategy toward both Russia and China in the effort to prevent a renewed arms race, if not global war.

Unsettled History examines South African society and the construction and presentation of its public pasts, from Nelson Mandela's release from prison in 1990 to South Africa's hosting of the 2010 FIFA World Cup ®.

Conventionally represented as a time of rectifying the silences and distortions of settler history through inclusion and recovery, the focus here instead is on the shifts in processes and locations of historicizing and the unsettled state of categories of framing history in post-apartheid South Africa. This era saw fundamental transformations in the order of knowledge: from the academy to the public; from popular history to public history; from history-as-lesson to history-as-forum. Leslie Witz, Gary Minkley, and Ciraj Rassool take the reader to sites of historical production in which complex ideas about pasts are invoked, and navigate a path toward understanding the agencies of image-making and memory production. This volume is the outcome of the authors' intensive collaborative research and engagement over twenty-five years on questions including the production and performance of apartheid history; the cultural politics of social history; South Africa's Truth and Reconciliation Commission and practices of orality; tourism as an arena of image-making and historical construction; museums as sites of heritage production for a new South Africa; photographs, archival meanings, and the

construction of the social documentary; and the centenary commemorations of the South African War and the making of race. The authors not only witnessed many of these instances of history-making but were also participants in their constitution.

Al-shabaab And Boko Haram: Guerrilla Insurgency Or Strategic Terrorism?

Edinburgh University Press

Throughout their long history, the primary concern of central banks has oscillated between price stability in normal times and financial stability in extraordinary times. In the wake of the recent global financial crisis, central banks have been given additional responsibilities to ensure financial stability, which has sparked intense debate over the nature of their role. Bankers and policy makers face an enormous challenge finding the right balance of power between the central bank and the state. This volume is the result of an international conference held at Norges Bank (the central bank of Norway). International experts and policy makers present research and historical analysis on the evolution of the central bank. They specifically focus on four key aspects: its role as an institution, the part it plays within the international monetary system, how to delineate and limit its functions, and how to apply the lessons of the past two centuries.
