The 2012 GCSE

English results prompted significant controversy, which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007-09 development phase of the qualification- in particular the turbulence which resulted from the shift away from a mostly linear to a modular system, combined with a high proportion of controlled assessment and

generous marking tolerances. Exam board experts raised concerns at the time, but these were not acted upon by the regulator (the then-interim Ofqual). Further difficulties arose because of pressures from the school accountability system. The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening, with consequences for grade awarding. The current status of Ofqual, as an independent

regulator accountable to Parliament, is the right one. However, the Coalition Government is bringing in wholesale changes to GCSEs and A levels, to a tight timetable and at the same time. Ofqual must have systems in place. The Committee is also concerned that there is a rush towards separate exam systems for England, Wales and Northern Ireland, without careful reflection on what might be lost, or consensus that this is the right thing to do.

R&L Education
Now in its second edition, *How to Read Texts* introduces students to key critical approaches to literary texts and offers a practical introduction for students developing their own critical and close-reading skills. Written in a lively, jargon-free style, it explains critical concepts, approaches and ideas including: - Debates around critical theory - The role of history and context - The links between creativity and criticism - The relationship between author, reader and text. The new edition now includes guidance on analysing a range of multi-media texts, including film and online media as well

as the purely literary. In addition to new practical examples, readings, exercises and 'checkpoints' that help students to build confidence in their own critical readings of both primary and secondary texts, the book now also offers guidance on writing fully-formed critical essays and tips for independent research. Comprehensively updated and revised throughout, *How to Read Texts* is an indispensable guide for students making the transition to university study. *Landmark Papers in Allergy* Routledge

gripping, Jungle Submarines follows the real-life adventures of Botch as he grows up with his eccentric family - Papa the stoic, Mama the passionate, Minu the thug, Anu the stubborn, and Nini the sweet - in a country and a world that is charmingly disorganized. Papa's job takes him and the family from the swampy jungles of Bihar to the dusty deserts

of Iraq, from the cool wetness of Coonoor to the hot dryness of Hyderabad; and this pageant of life teaches Botch about happiness and sadness, glory and defeat, strength and weakness, but above all about trust and family. 1850-1908 Oswal Publishers Are you looking for a new career or a part time job? allergic
disease
worldwide is

one of the most remarkable phenomena of the past 50 years. One in three people in developed countries will experience an allergic condition at some point in their lives and advances in understanding the causes of this trend, and in allergy treatment and care, have captured the imagination of scientists, clinicians and the

public. Landmark Papers in Allergy is a definitive collection of over 90 papers charting key discoveries and scientific advances in relation to allergy and the development of treatment and care for allergic disorders. Comprehensive in its coverage, the book includes the first clear descriptions of allergic diseases; the

major advances in treatments, such as the discovery of antihistamines, cortisone, biological therapies and immunotherapy; the great immunological advances, such as the discovery of immunoglobulin E (IgE) and leukotrienes; the possible factors behind the increase in allergy, such as the house dust mite, changes in hygiene and diet; and the growing understanding

of the social, allergy. ssc ldc udc
