This heartbreaking story starts in a place called the criminal circle where you will meet those who will capture you, judge you and then sentence you under the laws of *Street Justice*. It follows Taylor and

Dogg two young handsome men on a perilous journey from Texas to New York meeting many characters such as Elephant Man, Sugar Daddy and Reverend Omar among many others. Justice in San Francisco Dark Horse Comics

A criminal defense attorney “tugs at both the heartstrings and our consciences as he challenges America’s true commitment to justice” (Stacey Abrams), offering a blueprint for how public defense programs should work to end mass incarceration Combining wisdom drawn from over a dozen years as a public defender and cutting-edge research in the fields of organizational and cultural psychology, Jonathan Rapping proposes a radical cultural shift to a “fiercely client-based ethos” driven by values-based recruitment training, awakening defenders to their role in upholding an unjust status quo, and a renewed pride in the essential role of moral lawyering in a democratic society. Public defenders represent over 80% of those who interact with the court system, a disproportionate number of whom are poor, non-white citizens who rely on them to navigate the law on their behalf. More often than not, even the most well-meaning of those defenders are over-worked, under-funded, and incentivized to put the interests of judges and politicians above those of their clients in a culture that beats the passion out of talented, driven advocates, and has led to an embarrassingly low standard of justice for those who depend on the promises of *Gideon v. Wainwright*. Through the story of founding *Gideon’s Promise* and anecdotes of his time as a defender and teacher, Rapping reanimates the possibility of public defenders serving as a radical bulwark against government oppression and a megaphone to amplify the voices of those they serve.

Christians are clearly called to care for orphans, a group so close to the heart of Jesus. In reality, most of the 153 million orphaned and vulnerable children in the world do not need to be adopted, and not everyone needs to become an adoptive parent. However, there are other very important ways to help beyond adoption. Indeed, caring for orphaned and vulnerable children requires us to care about related issues from child trafficking and HIV/AIDS to racism and poverty. Too often, we only discuss or theologize the issues, relegating the responsibility to governments. No one can do everything, but everyone can do something. Based on his own personal journey toward pure religion, Johnny Carr moves readers from talking about global orphan care to actually doing something about it in *Orphan Justice*. Combining biblical truth with the latest research, this inspiring book: • investigates the orphan care and adoption movement in the U.S. today • examines new data on the needs of orphaned and vulnerable children • connects “liberal issues” together as critical aspects of orphan care • discovers the role of the church worldwide in meeting these needs • develops a

tangible, sustainable action plan using worldwide partnerships • fleshes out the why, what, and how of global orphan care • offers practical steps to getting involved and making a difference
