Stroke is a major cause of morbidity and mortality, with carotid disease representing an important contributory risk factor. This book is about the pathogenesis and management of carotid disease with specific focus on the role imaging has to play in the early recognition of symptomatic and asymptomatic disease as well as the treatment of the developed condition. Technological advances in imaging modalities now allow detailed analysis of the disease progression, the prediction of critical events leading to a stroke, as well as the identification of the most effective surgical or other interventional treatments. This book should be read by neurologists, cardiologists, vascular surgeons, neurosurgeons and radiologists involved in the care of patients with carotid disease, and also by researchers involved in the development of new therapeutic techniques and drugs.

Mastering the Nikon D500 by Darrell Young provides a wealth of experience-based information and insights for owners of the new D500 camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful professional camera equipment. This book explores the features and capabilities of the camera in a way that far surpasses the user's manual. It guides readers through the camera features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option. Every button, dial, switch, and menu configuration setting is explored in a user-friendly manner, with suggestions for setup according to various shooting styles. Darrell's friendly and informative writing style allows readers to easily follow directions while feeling as if a friend dropped in to share his knowledge. The information in this book goes beyond the camera itself and also covers basic photography technique.

**Husbandry Moralized; Or, Pleasant Sunday Reading for a Farmer's Kitchen** American Library Association (Meredith Music Resource). This book provides a broad curriculum or guide for directors emphasizing music as a fine art or cultural, aesthetic study. Through its presentation of lecture and resource materials including the teaching of timbre, structural elements, form, styles and performance practice, it provides justification for

including the band program as a core curriculum subject. The text also presents musical examples of varying levels of difficulty from the band repertory which offer an excellent source for quality programming.
