The dramatic story of explorer Douglas Mawson and "the most outstanding solo journey ever recorded in Antarctic history"

(Sir Edmund Hillary, mountaineer and explorer) For weeks in Antarctica, Douglas Mawson faced some of the most daunting conditions ever known to man: blistering wind, snow, and cold; the loss of his companion, dogs, supplies, and even the skin on his hands and feet. But despite constant thirst, starvation, disease, and snow blindness—he survived. Sir Douglas Mawson is remembered as the young Australian who would not go to the South Pole with Robert Scott in 1911. Instead, he chose to lead his own expedition on the less glamorous mission of charting nearly 1,500 miles of Antarctic coastline and claiming its resources for the British Crown. His party of three set out through the mountains across glaciers in 60-mile-per-hour winds. Six weeks and 320 miles out, one man fell into a crevasse—along with the tent, most of the equipment, the dogs' food, and all except a week's supply of the men's provisions.

Mawson's Will is the unforgettable story of one man's ingenious practicality, unbreakable spirit, and how he continued his meticulous scientific observations even in the face of death. When the expedition was over, Mawson had added more territory to the Antarctic map than anyone else of his time. Thanks to Bickel's moving account, Mawson can be remembered for the vision and dedication that make him one of the world's great explorers. Kabloona Vintage General description of scientific expedition to Bylot Island in 1954. [Psychology for the Millions](#) CNIB, 197 "A whole culture is imaginatively and authoritatively illuminated" in this "suspenseful, insightful, poignant" novel of prehistoric times (Publishers Weekly). Twenty thousand years ago, a

courageous girl lived in Siberia near Woman Lake, a place you won't find on any modern map. Only thirteen, Yanan and her companions—hunters of deer, gatherers of roots and twigs—struggle to survive the harsh realities of hunger and cold, bound by an unending cycle of birth, kinship, violence, and death. As Yanan recounts the terrible adventures of her brief life, she departs on spirit journeys that evoke the lives of the animals to which she and her people are intimately linked. A lyrical novel of our species' prehistory, *Reindeer Moon* opens up corridors to the imagination that lead us back to the long-forgotten echoes of our distant human past. "Unforgettable . . . *Reindeer Moon* beautifully resurrects a lost world of merciless magnificence. Dozens of memorable characters live and die in this moving tale, which should become a classic."

—Chicago Tribune Book World "Those familiar with the author's landmark study, *The Harmless People*, will not be surprised at the range of anthropological information she brings to her first novel, or at the lucidity of her prose. What will astonish, engross and move readers in her narrative of a group of hunter-gatherers who lived 20,000 years ago is the dramatic immediacy of the story and the depth and range of character development."

Ebenezer Le Page, cantankerous, opinionated, and charming, is one of the most compelling literary creations of the late twentieth century. Eighty years old, Ebenezer has lived his whole life on the Channel Island of Guernsey, a stony speck of a place caught between the coasts of England and France yet a world apart from either. Ebenezer himself is fiercely independent, but as he reaches the end of his life he is determined to tell his own story and the stories of those he has known. He writes of family secrets and feuds, unforgettable friendships and friendships betrayed, love glimpsed and lost. *The Book of Ebenezer Le Page* is a beautifully detailed chronicle of a life, but it is equally an oblique reckoning with the traumas of the twentieth century, as Ebenezer recalls both the men lost to the Great War and the

German Occupation of Guernsey during World War II, and looks with despair at the encroachments of commerce and tourism on his beloved island. G. B. Edwards labored in obscurity all his life and completed *The Book of Ebenezer Le Page* shortly before his death. Published posthumously, the book is a triumph of the storyteller's art that conjures up the extraordinary voice of a living man.

From his home in remote Eskimo Village, Nick Jans leads us into a vast, magical world: Alaska's Brooks Range. Drawn from fourteen years of arctic experience, *The Last Light Breaking* offers a rare perspective on America's last great wilderness and its people--the Inupiat Natives, an ancient culture on the cusp of change. Making a poignant connection between the world he describes and the world of the Inupiat once knew, Nick Jans invokes with stunning power, the life of the Eskimos in the harsh arctic and the mystical aura of the wilderness of the far North. With the eye of an outdoorsman and the heart of a poet, Jans weaves

together these 23 essays with strands of native American narrative, making vivid a place where wolves and grizzlies still roam free, hunters follow the caribou, and old women cast their nets in the dust as they have for countless generations. But looming on the horizon is the world of roads and modern technology; the future has already arrived in the form of stop signs, computers, and satellite dishes. Jans creates unforgettable images of a proud people facing an uncertain future, and of his own journey through this haunting timeless landscape.

Theodore Kaczynski saw violent collapse as the

only way to bring down the techno-industrial system, and in more than a decade of mail bomb terror he killed three people and injured 23 others. One does not need to support the actions that landed Kaczynski in supermax prison to see the value of his essays disabusing the notion of heroic technology while revealing the manner in which it is destroying the planet. For the first time, readers will have an uncensored personal account of his anti-technology philosophy, including a corrected version of the notorious "Unabomber Manifesto," Kaczynski, a critique of anarcho-primitivism, and essays regarding "the Coming Revolution."

A self-proclaimed "vessel in which stories are told from time immemorial," poet dg nanouk okpik seamlessly melds both traditional and contemporary narrative, setting her apart from her peers. The result is a collection of poems that are steeped in the perspective of an Inuit of the twenty-first century—a perspective that is fresh, vibrant, and rarely seen in contemporary

poetics. Fearless in her craft, okpik brings an experimental, yet poignant, hybrid aesthetic to her first book, making it truly one of a kind. "It takes all of us seeing, hearing, touching, tasting, and smelling to be one," she says, embodying these words in her work.

Every sense is amplified as the poems, carefully arranged, pull the reader into their worlds. While each poem stands on its own, they flow together throughout the collection into a single cohesive body. The book quickly sets up its own rhythms, moving the reader through interior and exterior landscapes, dark and light, and other spaces both ecological and spiritual.

These narrative, and often visionary, poems let the lives of animal species and the power of natural processes weave into the human psyche, and vice versa.

Okpik's descriptive rhythms ground the reader in movement and music that transcend everyday logic and open up our hearts to the richness of meaning available in the interior and exterior worlds.

Since the 1800's, many European Americans have relied on Native Americans as models for their own national, racial,

and gender identities. Displays of this impulse include world's fairs, fraternal organizations, and films such as *Dances with Wolves*. Shari M. Huhndorf uses cultural artifacts such as these to examine the phenomenon of "going native," showing its complex relations to social crises in the broader American society—including those posed by the rise of industrial capitalism, the completion of the military conquest of Native America, and feminist and civil rights activism. Huhndorf looks at several modern cultural manifestations of the desire of European Americans to emulate Native Americans. Some are quite pervasive, as is clear from the continuing, if controversial, existence of fraternal organizations for young and old which rely upon "Indian" costumes and rituals. Another fascinating example is the process by which Arctic travelers "went Eskimo," as Huhndorf describes in her readings of Robert Flaherty's travel narrative, *My Eskimo Friends*, and his documentary film,

Nanook of the North. Huhndorf asserts that European Americans' appropriation of Native identities is not a thing of the past, and she takes a skeptical look at the "tribes" beloved of New Age devotees. *Going Native* shows how even seemingly harmless images of Native Americans can articulate and reinforce a range of power relations including slavery, patriarchy, and the continued oppression of Native Americans. Huhndorf reconsiders the cultural importance and political implications of the history of the impersonation of Indian identity in light of continuing debates over race, gender, and colonialism in American culture. *Social Anarchism Or Lifestyle Anarchism* Boston : Little, Brown
