University of Buckingham Press The poems included in this comprehensive anthology run the gamut of styles and themes, but all are by Latinos writing from the mid-twentieth century to the present. Some deal with issues specific to the Hispanic experience, such as displacement, identity and

language. Others ponder universal concerns, such as love, family and humanity. In "Letter to Arturo," Mexican- American poet Lucha Corpi pens a song of love to her son: "You've hardly left / and already I miss the light / caress of your hands / on my hair, / and your laughter and your tears, / and all your questions / about seas, / moons and deserts. / And all my	poems / are tying themselves together / in my throat."More than 60 Latino poets are represented in this wide-ranging collection that focuses on poetry from the four largest groups in the United States: Mexican Americans, Cuban Americans, Puerto Ricans and Dominican Americans. Included are distinguished poets such as Julia Álvarez, Gloria Anzaldúa, Jimmy	Santiago Baca, Martín Espada and Pedro Pietri, as well as less well-known writers who deserve more recognition. Whether writing about timeless issues or themes specific to their community, the poets in this volume craft a multilayered look at what it means to be Latino in the United States. Looking Out, Looking In is an indispensable and welcome addition to

We think we understand the  
laws of physics. We think  
reality is an immutable  
monolith, consistent from one  
end of the universe to the next.  
We think the square/cube law  
has actual relevance. We think  
a lot of things. It was perhaps  
inevitable that some of them  
would turn out to be wrong.  
When the great incursion  
occurred, no one was

prepared. How could they have  
been? Of all the things  
physicists had predicted, "the  
fabric of reality might rip open  
and giant monsters could come  
pouring through" had not made  
the list. But somehow, on a fine  
morning in May, that was  
precisely what happened. For  
sisters Susan and Katharine  
Black, the day of the incursion  
was the day they lost  
everything. Their home, their  
parents, their sense of  
normalcy...and each other,  
because when the rift opened,  
Susan was on one side and  
Katharine was on the other,  
and each sister was stranded in

a separate form of reality. For Susan, it was science and study and the struggle to solve the mystery of the altered physics inside the zones transformed by the incursion. For Katharine, it was monsters and mayhem and the fight to stay alive in a world unlike the world of her birth. The world has changed. The laws of physics have changed. The girls have changed. And the one universal truth of all states of changed matter is that nothing can be completely restored to what it was originally, no matter how much you might wish it could be. Nothing goes back.

“ peculiar grace ” from the National Book Critics Circle Award finalist author of *Dailies & Rushes* (Brian Phillips, *Poetry Magazine*). Susan Kinsolving ’ s first poetry collection, *Dailies & Rushes*, was hailed as a “ brilliant debut ” by the *New York Times*, and “ grand and almost terrifying ” by the *New Yorker*. In her new work, *The White Eyelash*, she turns the extremes of her recent experiences—especially those with her ageing, mentally ill mother—into poems of harsh factuality. This dark narrative sequence is highly contrasted by

the humor presented in a section called “ Light Fare & Oddballs. ” Once again, Kinsolving exhibits a daunting range with signature style and substance. “ [The White Eyelash] finds the poet remembering her trouble mother, concentrating on visual detail or pursuing light-verse forms and verbal games with a demotically highbrow, casual grace. . . . Often organized around colors . . . these poems show a love for beauty and a casual line reminiscent of Eamon Grennan ’ s. ” —Publishers Weekly

A classic text about the social study of food, this is the first English language edition of Jean-Pierre Poulain's seminal work. Tracing the history of food scholarship, *The Sociology of Food* provides an overview of sociological theory and its relevance to the field of food. Divided into two parts, Poulain begins by exploring the continuities and changes in the modern diet. From the effect of globalization on food production and supply, to evolving cultural responses to

food – including cooking and eating practices, the management of consumer anxieties, and concerns over obesity and the medicalization of food – the first part examines how changing food practices have shaped and are shaped by wider social trends. The second part provides an overview of the emergence of food as an academic focus for sociologists and anthropologists. Revealing the obstacles that lay in the way of this new field of study, Poulain shows how the discipline was first established and explains its development over the last forty years.

---

Destined to become a key text for students and scholars, *The Sociology of Food* makes a major contribution to food studies and sociology. This edition features a brand new chapter focusing on the development of food studies in the English-speaking world and a preface, specifically written for the edition.
