Bernie Rhodenbarr is actually trying to earn an honest living. It's been an entire year since he's entered anyone's abode illegally to help himself to their valuables. But now an unscrupulous landlord's threat to increase Bernie's rent by 1,000% is driving the bookseller and reformed burglar back to a life of crime -- though, in all fairness, it's a very short trip. And when the cops wrongly accuse him of stealing a priceless collection of baseball cards, Bernie's stuck with a worthless alibi since he was busy burgling a different apartment at the time . . . one that happened to contain a dead body locked inside a bathroom. So Bernie has a dilemma. He can trade a burglary charge for a murder rap. Or he can shuffle all the cards himself and try to find the joker in the deck -- someone, perhaps, who believes that homicide is the real Great American Pastime.

A "magical, marvellous" epic of an empire in collapse: Book one in the acclaimed Ottoman Quartet by the award-winning Turkish author and political dissident (La Stampa, Italy). Tracking the decline and fall of the Ottoman empire, Ahmet

Altan's Ottoman Quartet spans fifty years from the end of the nineteenth century to the post-WWI rise of Atatu ?rk as leader of the new Turkey. In Like a Sword Wound, a modern-day resident of Istanbul is visited by the ghosts of his ancestors, finally free to tell their stories "under the broad, dark wings of death." Among the characters who come to life are an Ottoman army officer; the Sultan's personal doctor; a scion of the royal house whose Western education brings him into conflict with his family's legacy; and a beguiling Turkish aristocrat who, while fond of her emancipated life in Paris, finds herself drawn to a conservative Muslim spiritual leader. As their stories of intimate desire and personal betrayal unfold, the society that spawned them is transforming and the sublime empire disintegrating. Here is a Turkish saga reminiscent of War and Peace, written in lively, contemporary prose that traces not only the social currents of the time but also the erotic and emotional lives of its characters. The first book in the Dave Gurney series, Think of a Number is a heart-pounding game of cat and mouse that grows relentlessly darker and more frightening as its pace accelerates Threatening letters arrive in the mail over a period of weeks, ending with a simple declaration: "Think of any number . . . picture it . . . now see

how well I know your secrets." Those who comply find that the letter writer has predicted their random choice exactly. But when oddities that begin as a diverting puzzle quickly ignite into a massive serial murder investigation, police are confronted with a baffling killer, one who is fond of rhymes filled with threats and warnings, whose attention to detail is unprecedented, and who has an uncanny knack for disappearing into thin air. Brought in as an investigative consultant, Dave Gurney, a recently retired NYPD homicide investigator, soon accomplishes deductive breakthroughs that leave local police in awe. Yet, even as he matches wits with his seemingly clairvoyant opponent, Gurney's tragedy-marred past rises up to haunt him, his marriage approaches a dangerous precipice, and he wonders if he's met an adversary who can't be stopped. A work that defies easy labels--at once a propulsive masterpiece of suspense and an absorbing immersion in the lives of characters so real we seem to hear their heartbeats--Think of a Number is a novel you'll not soon forget.

Samad Behrangi was an author who would always incorporate some kind of meaningful story in his writing. According to Samad, literature for children and teenagers was not a "Do and Do not" lecture, but a place for developing their social awareness. He would try to familiarize their creative and questioning minds with concepts like, justice, honesty and friendship. He was a teacher in poor villages who knew exactly what poverty was. In his writing, he would consider the life of poor people, and the way they lived. His stories were dedicated to children from the disadvantaged side of the

society. He is the author of stories like, The Little Black Fish, Oldooz and Speaker Doll, all stories with meaningful tales. One peach and one thousand peaches is a story of a tree in which a gardener does everything to make it grow, but he fails. Who knows why? The author by asking this question is provoking the reader's mind, as he is telling the story from the point of the peach tree itself. The main protagonists, Poolad and SahebAli, are the voice of the poor, and the gardener is the rich, powerful, and uncaring part of society.

The #1 New York Times bestselling author of What Went Wrong? tells the story of his extraordinary life After September 11, Americans who had never given much thought to the Middle East turned to Bernard Lewis for an explanation, catapulting What Went Wrong? and later Crisis of Islam to become number one bestsellers. He was the first to warn of a coming "clash of civilizations," a term he coined in 1957, and has led an amazing life, as much a political actor as a scholar of the Middle East. In this witty memoir he reflects on the events that have transformed the region since World War II, up through the Arab Spring. A pathbreaking scholar with command of a dozen languages, Lewis has advised American presidents and dined with politicians from the shah of Iran to the pope. Over the years, he had tea at Buckingham Palace, befriended Golda Meir, and briefed politicians from Ted Kennedy to Dick Cheney. No stranger to controversy, he pulls no punches in his blunt criticism of those who see him as the intellectual progenitor of the Iraq war. Like America's other great historian-statesmen Arthur Schlesinger and Henry Kissinger, he is a figure of towering intellect and a world-class raconteur, which makes Notes on a Century essential reading for anyone who cares about the fate of the Middle East.

In this lyrical, exuberant tale, acclaimed Turkish author Elif Shafak, author of The Island of Missing Trees (a Reese's Book Club Pick), incarnates Rumi's timeless message of love The Forty Rules of Love unfolds two tantalizing parallel narratives—one contemporary and the other set in the thirteenth century, when Rumi encountered his spiritual mentor, the whirling dervish known as Shams of Tabriz—that together explore the enduring power of Rumi's work. Ella Rubenstein is forty years old and unhappily married when she takes a job as a reader for a literary agent. Her first assignment is to read and report on Sweet Blasphemy, a novel written by a man named Aziz Zahara. Ella is mesmerized by his tale of Shams's search for Rumi and the dervish's role in transforming the successful but unhappy cleric into a committed mystic, passionate poet, and advocate of love. She is also taken with Shams's lessons, or rules, that offer insight into an ancient philosophy based on the unity of all people and religions, and the presence of love in each and every one of us. As she reads on, she realizes that Rumi's story mirrors her own and that Zahara—like Shams—has come to set her free.
