Why Minotaur Books

Print designers make the transition to multimedia by mastering the interactive capabilities of InDesign with this tutorial-based guide to the new CS5 toolset that integrates with the Adobe Flash platform.

Interactive InDesign CS5 Swokowski's text is truly Krause Publications as its name implies: a classic. Groundbreaking in every way when first published, this book is a simple, straightforward, direct calculus text. It's popularity is directly due to its broad use of applications, the easy-to-understand writing style, and the wealth of examples and exercises which reinforce conceptualization of the subject matter. The author wrote this text with three objectives in mind. The first was to make the book more student-oriented by expanding discussions and providing more examples and figures to help clarify concepts. To further aid students, guidelines for solving problems were added in many sections of the text.

"This book presents the stories, insights, and advice of 20 highly successful women coaches who have broken coaching barriers and established new standards of excellence in their coaching roles in 15 different sports in multiple countries. These coaches detail not only how they coach but also how they communicate with, care for, and develop the athletes under their guidance as well as how they cultivate the culture of their teams and programs to ensure they are the best they can be"--

The second objective was to stress the usefulness of calculus by means of modern applications of derivatives and integrals. The third objective, to make the text as accurate and error-free as possible, was accomplished by a careful examination of the exposition, combined with a thorough checking of each example and exercise.

Something Borrowed,

Someone Dead continues the tradition in M. C. Beaton's

beloved Agatha Raisin cozy mystery series—now a hit show on Acorn TV and public television. Gloria French was a jolly widow with dyed blonde hair, a raucous laugh and rosy cheeks. When she first moved from London to the charming Cotswolds hills, she was heartily welcomed. She seemed a do-gooder par excellence, raising funds for the church and caring for the elderly. But she had a nasty habit of borrowing things and not giving them back, just small things, a teapot here, a set of silverware there. So it's quite the shock when she is found dead, murdered by a poisoned bottle of elderberry wine. Afraid the murder will be a blight on the small town, Parish councillor, Jerry Tarrant, hires private detective Agatha Raisin to track down the murderer. But the village is secretive and the residents resent Agatha's investigation. Of course that doesn't stop the ever-persistent Agatha from investigating and sticking her nose where no one wants

it—especially as the suspect list grows. And, as if it isn't enough that Agatha's ex has reentered the picture, the murderer is now targeting Agatha! With M.C. Beaton's *Something Borrowed, Someone Dead* the bossy, vain, and absolutely irresistible, Agatha Raisin continues to be a fan favorite.
