Modifying Suzuki 4x4 for Serious Offroad Action Haynes Manuals N. America, Incorporated

In the old days all a person needed to build a killer custom motorcycle was a bike, a set of tools, a little know-how, and a creative vision. But with the rise of the high-dollar, haute moteur Gucci choppers, the true custom bike has gotten out of most riders' reach, right? Dead wrong. In this book Jose de Miguel, a custom builder from way back, sets out to prove that those good old days never ended. In the clearest and simplest terms, he shows readers how they can turn odds and ends found around the shop into one-off motorcycle parts--and make a cheap, run-of-the mill custom build into a drop-dead show stopper. Following de Miguel's lead, along with his straightforward illustrations, any resourceful owner with rudimentary mechanical skills, a basic tool kit, and--most importantly--a modicum of imagination can build the bobber of his dreams for less than the price of a new bike.

Honda VT1100 Shadow Motorbooks International

This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.

Kawasaki Z1, Z/KZ900 & Z/KZ1000 is for all owners and enthusiasts of the legendary Kawasaki Z1 900, Z/KZ900 and Z1000 built between 1972 and 1980. The book covers the complete restoration of a 1976 KZ900, from the sourcing of the bike to its completion as a fully restored machine. Every area is covered starting with advice on the different models, spares availability, and where best to source a bike to restore. Every area of the restoration is then covered in full detail including the engine, frame, gearbox, wheels, suspension and forks, brakes, ancillaries, bodywork and electrics, accompanied by hundreds of clear color photos to illustrate the text.

Additional work on a 1974 Z1A model adds complementary information. What really sets this manual apart, however, is the style in which it is written: not as some dull and distant workshop manual but in a friendly, humorous manner by an enthusiast of many years who is able to involve and entertain the reader, as well as guiding them through the restoration process. This is the third restoration guide from Chris Rooke, whose previous works have been a massive hit with mechanics, enthusiasts and restorers throughout the world.

American Motorcyclist The Crowood Press

Classic Honda Motorcycles presents an overview of Honda motorcycles produced from 1958 through 1990, including iconic models such as the CB77 Super Hawk, CB92 Benly, Dream, CB750 and many others.

Enthusiasts will find a bounty of useful and interesting information about which bikes are likely to suit an individual rider's needs, which models are most collectible and how to find parts for rare Honda motorcycles.
