Exercise twice each day for 45 minutes - it doesn't matter what the exercise is but one of these sessions must to be outdoors. Drink 4 litres of water per day. Pick a diet or eating plan and stick to that plan. You don't necessarily have to count calories but be intelligent - no chocolates, no cake, no soft drinks, and NO ALCOHOL (this is the one I'll struggle with the most). Read a minimum of 10 pages every day of growth mindset material or self-help book. No fifty shades of grey content! stick to real life material to work on your mindset. Take one progress photo each day - even though this is more of a mental challenge, the byproduct will be a physical change at the end of the 75 days.

*Project Bold Life* HarperCollins

Take time to breathe. Take time to create. Take time to reflect, take time to let go. A book that's unique in the way it mixes reading and doing, *A Book That Takes Its Time* is like a mindfulness retreat between two covers. Created in partnership with *Flow*, the groundbreaking international magazine that celebrates creativity, beautiful illustration, a love of paper, and life's little pleasures, *A Book That Takes Its Time* mixes articles, inspiring quotes, and what the editors call "goodies"—bound-in cards, mini-journals, stickers, posters, blank papers for collaging, and more—giving it a distinctly handcrafted, collectible feeling. Read about the benefits of not multitasking, then turn to "The Joy of One Thing at a Time Notebook" tucked into the pages. After a short piece on the power of slowing down, fill in the designed notecards for a Beautiful Moments jar. Make a personal timeline. Learn the art of hand-lettering. Dig into your Beginner's Mind. Embrace the art of quitting. Take the writing cure. And always smile. Move slowly and with intention through *A Book That Takes Its Time*, and discover that sweet place where life can be both thoughtful and playful.

*Why Conquering Fear Won't Work and What to Do Instead* Penguin

Robyn Lawley is a self-confessed foodie — in addition to being an international supermodel for the likes of H & M and Ralph Lauren. When she 's not gracing the cover of *Vogue* or modelling swimwear or walking the runway, she is scouring menus around the globe and cooking up a storm for her best friends in her adopted home: New York City. *Robyn Lawley Eats* takes its name from her popular food blog and brings together a collection of modern classics and sumptuous photography from Robyn 's travels, as well as home-grown Aussie dishes from her upbringing in Sydney. This book has been a true labour of love for our stunning and talented Robyn Lawley. Every single recipe in her new book was personally cooked, photographed, plated and eaten in Robyn's own kitchen in New York City! A rich, cosmopolitan array of recipes for any occasion, *Robyn Lawley Eats* has something for all levels of cooking experience and is an inspiration to girls who just love to eat.

*The Bikini Body 28-Day Healthy Eating & Lifestyle Guide* Penguin

A revolutionary guide to acknowledging fear and developing the tools we need to build a healthy relationship with this confusing emotion—and use it as a positive force in our lives. We all feel fear. Yet we are often taught to ignore it, overcome it, push past it. But to what benefit? This is the essential question that guides Kristen Ulmer 's remarkable exploration of our most misunderstood emotion in *The Art of Fear*. Once recognized as the best extreme skier in the world (an honor she held for twelve years), Ulmer knows fear well. In this conversation-changing book, she argues that fear is not here to cause us problems—and that in fact, the only true issue we face with fear is our misguided reaction to it (not the fear itself). Rebuilding our experience with fear from the ground up, Ulmer starts by exploring why we 've come to view it as a negative. From here, she unpacks fear and shows it to be just one of 10,000 voices that make up our reality, here to help us come alive alongside joy, love, and gratitude. Introducing a mindfulness tool called "Shift," Ulmer teaches readers how to experience fear in a simpler, more authentic way, transforming our relationship with this

emotion from that of a draining battle into one that 's in line with our true nature. Influenced by Ulmer 's own complicated relationship with fear and her over 15 years as a mindset facilitator, *The Art of Fear* will reconstruct the way we react to and experience fear—empowering us to easily and permanently address the underlying cause of our fear-based problems, and setting us on course to live a happier, more expansive future.

The American body is in trouble. Unprecedented numbers of us suffer from obesity, heart disease, diabetes, and other debilitating illnesses. The root cause is a once-revolutionary idea that seemed to offer so much promise, but instead has become the cause of a global health crisis: processed foods. Over the past seventy-five years, a number of factors aligned to create a reality in which processed carbohydrates became our main food source. In *Fast Carbs, Slow Carbs*, bestselling author and former FDA Commissioner David A. Kessler explains how the quest to feed a nation resulted in a population that is increasingly suffering from obesity and chronic disease and offers a solution for changing course. For decades, no one questioned the effects of these processed carbohydrates. The focus was on fertile grassland, ideal for growing vast amounts of wheat and corn; an industrial infrastructure perfect for refining those grains into starch; a food production behemoth that turns refined grains into affordable, appealing, and ever-present food items, from pizza to burritos to bagels; and an efficient distribution network that ensures consumption by Americans nationwide. But during those same decades, our bodies quietly contended with the metabolic chaos caused by consuming rapidly absorbable starch. Slowly but surely, these effects accumulated and became disastrous, leading to the public health crisis in which we find ourselves today. In *Fast Carbs, Slow Carbs*, Kessler explains how eating refined grains such as wheat, corn, and rice leads to a cascade of hormonal and metabolic issues that make it very easy to gain weight and nearly impossible to lose it. Worse still is how excess weight creates a very real link to diabetes, heart disease, cognitive decline, and a host of cancers. We can no longer afford to dismiss the consequences of eating food that is designed to be rapidly absorbed as sugar in our bodies. Informed by cutting-edge research as well as Dr. Kessler 's own personal quest to manage his weight, *Fast Carbs, Slow Carbs* reveals in illuminating detail how we got to this critical turning point in our health as a nation—and outlines a plan for eliminating heart disease, allowing us to, finally, regain control of our health.

We don't need to be instructed to eat apples instead of potato chips. What we need is someone to inspire us to eat well and to show us just how powerful eating that apple can be. This person must be a trusted voice, one that can calm the informational clutter instead of adding yet another discordant voice to the pile. Desiree Nielsen is a registered dietitian, one of the public's most trusted sources of nutrition information. In Un-Junk Your Diet, she teaches readers about anti-inflammatory dieting in a way that's engaging, funny, and approachable. This book begins with a call to action to help shake up perceptions of what food means to our bodies and illuminate all the ways that marketers co-opt healthy eating messages to coerce us into choosing food that is unworthy. In addition, an in-depth look at the fundamentals of nutrition—with a splash of myth busting—strengthens readers' abilities to resist the latest nutrition headline and continue making healthier choices. Because there is no one right way for every individual eater, Nielsen offers a brief exercise in self-discovery before providing four distinct plans for becoming healthier. They range from the gentle and gradual to the two-week kick start that appeals to both detox seekers and vacation slimmers.

Do you lack confidence, grit, endurance, fortitude, self-esteem and all the other things that don't just make someone great, but successful in everything they do? What if you could completely transform yourself into someone who could do anything? I'm not talking about the change that happens for a week or a month or a year...but for your whole life? What would that legitimately and realistically be worth to you? Everybody tries to tell themselves that they are "special" or "great"...but it's just talk. It's not reality. This book tells you how to do that. It doesn't cost anything to execute this program...but it ain't free. I guarantee if you do exactly as I tell you to do it with no compromises and zero substitutions...you and your life will never be the same.-Andy Frisella

Money. That was my New Year's resolution for 2018. And as vague as that is, it was the only one I've ever stuck with. In one year, I became a self-taught, financially literate, successful money-saver, and frugal money-spender while also getting out of credit card debt and investing in myself and my future - all while still traveling and enjoying my life! I spent hundreds of hours pouring over personal finance books, podcasts, blogs, videos, and apps and documented it all so I could share the lessons I learned on everything money that they don't teach us in school. As an educator myself, I felt compelled to share my story (and best tips and tricks) to help others on their journey to becoming financially intelligent. This is a tangible, relatable, down-to-earth, up-to-date, well-rounded guide for improving your finances. You'll learn how to: Set goals Travel on the cheap Lower your interest rates Earn compound interest Consolidate retirement accounts Open a Roth IRA Invest in mutual funds & ETFs Enjoy credit card perks Save on groceries (without cutting coupons). And lots more! If you're just getting started, learn how I did it from scratch so you can too. If you're already living frugally, saving for retirement, and investing for your future, you're still sure to learn plenty of skills to help you develop new money habits that stick. In the end, you'll have a checklist with 101 steps - try as many money tasks as you can! After nearly a decade of ignoring my growing debt and scraping by without a budget, I woke up one morning and decided, "Today's the day to change." Make today your day. Invest in yourself and commit to your 365-day money resolution now! As featured on The Stacking Benjamins Show Podcast and in Teach For America's One Day Magazine.
