Language Texts,

under the general  
editorship of  
Howard P.  
McKaughan, consists  
of lesson  
textbooks,  
grammars, and  
dictionaries for  
seven major  
Filipino languages.  
Ilokano is an  
Austronesian  
language. It ranks  
third among the

---

major languages of the Philippines, being spoken by just over 12 percent of the population. Widely spoken throughout the Philippines, Ilokano is the dominant language of most of the provinces of Northern Luzon and is used as a lingua franca by non-Ilokano speakers in this area. Settlers have also carried the language to Mindoro and to several areas in Mindanao. Ilokano Lessons was developed under the auspices of the Pacific and Asian Linguistics Institute (PALI) of

the University of Hawaii, and accompanies the Ilokano dictionary and the Ilokano reference grammar. The lessons in this text are supplemented by a series of appendixes consisting of vignettes of Ilokano life, songs, a glossary, and vocabulary lists.

#### A Sin Against The Future Springer Nature

Filipino Americans have a long and rich history with and within the United States, and they are currently the second largest Asian group in the country. However, very little is known about how their historical and contemporary relationship with America may shape their psychological experiences. The most insidious psychological consequence of

---

their historical and contemporary experiences is colonial mentality or internalized oppression. Some common manifestations of this phenomenon are described below:

- Skin-whitening products are used often by Filipinos in the Philippines to make their skins lighter. Skin whitening clinics and businesses are popular in the Philippines as well. The "beautiful" people such as actors and other celebrities endorse these skin-whitening procedures. Children are told to stay away from the sun so they do not get "too dark." Many Filipinos also regard anything "imported" to be more special than anything "local" or made in the Philippines.
- In the United States, many Filipino Americans make fun of "fresh-off-the-boats" (FOBs) or those who speak English with Filipino accents. Many Filipino Americans try to dilute their "Filipino-ness" by saying that they are mixed with some other races. Also, many Filipino Americans regard Filipinos in the Philippines, and pretty much everything about the Philippines, to be of "lower class" and those of the "third world." The historical and contemporary reasons for why Filipino -/ Americans display these attitudes, beliefs, and behaviors - often referred to as colonial mentality - are explored in *Brown Skin, White Minds*. This book is a peer-reviewed publication that integrates knowledge from multiple scholarly and scientific disciplines to identify the past and current catalysts for such self-denigrating attitudes and behaviors. It takes the reader from indigenous Tao culture, Spanish and American colonialism, colonial mentality or internalized oppression along with its implications on Kapwa, identity, and mental health, to decolonization in the clinical, community, and research settings. This book is intended for the entire community - teachers, researchers, students, and service providers interested in or who are working with Filipinos and Filipino Americans, or those who are interested in the psychological consequences of colonialism and oppression. This book may serve as a tool for remembering the past and as a tool for awakening to address the present.

This open access book explores how young people engage with chemical substances in their everyday lives. It builds upon and supplements a large body of literature on young people ' s use of

drugs and alcohol to highlight the subjectivities and socialities that chemical use enables across diverse socio-cultural settings, illustrating how young people seek to avoid harm, while harnessing the beneficial effects of chemical use. The book is based on multi-sited anthropological research in Southeast Asia, Europe and the US, and presents insights from collaborative and contrasting analysis. Hardon brings new perspectives to debates across drug policy studies, pharmaceutical cultures and regulation, science and technology studies, and youth and precarity in post-industrial societies. Ilocano Dictionary and Grammar Cambridge University Press Vivien Stern contends that prisons, a mainstay of punishment, are an anachronistic and probably counterproductive system for dealing with rising

---

crime rates. Arguing that inherent flaws in the institution of prison threaten democratic values and fail to meet the needs of modern society, she makes a powerful case for implementing radical change. Stern first discusses the evolution of imprisonment and then explores how different areas of the world approach and use incarceration as a punitive measure. She looks at life in prison across regions and across cultural traditions, describing the personal and very disturbing experiences of prisoners as well as the treatment of minorities, women, and juveniles. According to Stern, prison is a deformed society, a place of violence, corruption, and gross human rights abuses. The author considers the many courageous efforts being made around the world to improve prisons and mitigate their built-in

destructiveness, and she advocates searching for a better solution to control criminal offenses in an increasingly divided and dangerous society. Instead of locking up yet more people, she calls for a practical and positive system that reconciles and heals the breaches caused by crime. This hard-hitting, comparative study of imprisonment exposes the waste, the horror, and the heroism of the growing worldwide business of incarceration.

Explains subsistence as empowerment based on people's strength and cooperation. Analyses recent feminist politics and argues that the fight for equality with men has failed to make an egalitarian society. Includes case studies from Africa, Latin America and Europe, references and an index. Mies is professor of sociology at the Fachhochschule, Cologne. Bennholdt-Thomsen is director of the institute of the theory and praxis of subsistence, Bielefeld, Germany. World Art Routledge Classic story of the last days of Spanish rule in the Philippines. Fieldwork Crossway This root-based dictionary of the Ilocano language is the most comprehensive

dictionary produced of Ilocano (Iloko), the lingua franca of Northern Luzon, and historically the native language of the majority of Filipino immigrants to the United States. The body of the dictionary includes entries for roots and affixes with illustrative sentences, idioms, common derivations, and scientific names (when applicable). Ilocano synonyms are also furnished when appropriate. Derived words that undergo morphological fusion are listed as separate entries to facilitate lexical searches. There is also an affix cross-reference list to help the beginning student recognize root words. Unlike most dictionaries of Philippine languages, it has an extensive English to Ilocano section,

---

information on the pre-Hispanic syllabary, and language maps of the Philippines showing where the largest concentration of Ilocano speakers reside. Of related interest: Let's Speak Ilokano, by Precy Espiritu
