Illustrated. Smythe-sewn and printed on acid-free paper.

A New English Dictionary on Historical Principles Harcourt

Why the modern world forgot how to sleep Why is sleep frustrating for so many people? Why do we spend so much time and money managing and medicating it, and training ourselves and our children to do it correctly? In *Wild Nights*, Benjamin Reiss finds

answers in sleep's hidden history--one that leads to our present, sleep-obsessed society, its tacitly accepted rules, and their troubling consequences. Today we define a good night's sleep very narrowly: eight hours in one shot, sealed off in private bedrooms, children apart from parents. But for most of human history, practically no one slept this way. Tracing sleep's transformation since the dawn of the industrial age, Reiss weaves together insights from literature, social and medical history, and cutting-edge science to show how and why we have tried and failed to tame sleep. In lyrical prose, he leads readers from bedrooms and laboratories to factories and battlefields to Henry David Thoreau's famous cabin at Walden Pond, telling the stories of troubled sleepers, hibernating peasants, sleepwalking preachers, cave-dwelling sleep researchers, slaves who led nighttime uprisings, rebellious workers, spectacularly frazzled parents, and utopian dreamers. We are hardly the first people, Reiss makes clear, to chafe against our modern rules for sleeping. A stirring testament to sleep's diversity, *Wild Nights* offers a profound reminder that in the vulnerability of slumber we can find our shared humanity. By peeling back the covers of history, Reiss recaptures sleep's mystery and grandeur and offers hope to weary readers: as sleep was transformed once before, so too can it change today.

The *Goetia* the Lesser Key of Solomon the King Harvard University Press Christian theology has been complicit in justifying the war on women, but it also has resources to help finally declare peace in the war on women. War itself has come to resemble the war on women, and thus strategies to end the war on women, supported by new Christian theological interpretations, will also help end today's endless wars.

Introduction to African American Studies North Atlantic Books

Unleash Your Irresistibility! "Make Every Man Want You gives every

woman the tools she needs to unlock her inner magnet." --Kelly Ripa Let's make one thing clear: this book is like no other dating book you've read. There are no rules, no list of things to do to land a husband in thirty days, and no reason to blame yourself if "he's just not that into you." Please. Throw those books away. Instead, let's focus on you--and how you can make yourself more appealing to others in almost every situation--whether you have a man or not. Think of it as a crash course in desirability, a life-changing lesson in loving yourself inside and out. Once you embrace your unique qualities and dissolve your bad relationship habits, you'll be amazed to find how irresistible you are to others! This girl-friendly guide reveals: Five Truths Every Irresistible Woman Needs to Know: Live in the moment, Men do not want to be changed or improved Seven Habits of Highly Unattractive Women: Boring in bed, Being needy Eight Secrets of Attracting the Right Man for You: Get rid of your "perfect man" checklist, Have your own life

Designing Your Life Demeter Press In Northern Ireland, The United States and the Second World War, Simon Topping analyses the American military presence in Northern Ireland during the war, examining the role of the government at Stormont in managing this 'friendly invasion', the diplomatic and military rationales for the deployment, the attitude of Americans to their posting, and the effect of the US presence on local sectarian dynamics. He explores US military planning, the hospitality and entertainment provided for American troops, the renewal and reimagining of historic links between Ulster and the United States, the importation of 'Jim Crow' racism, 'Johnny Doughboys' marrying 'Irish Roses', and how all

of this impacted upon internal, transatlantic and cross-border politics. This study also draws attention to influential and understudied individuals such as Northern Ireland's Prime Minister Sir Basil Brooke and offers a reassessment of David Gray, America's minister to Dublin. As a result, it provides a comprehensive examination of largely overlooked aspects of the war and Northern Ireland more generally, and fills important gaps in the history of both. Northern Ireland, The United States and the Second World War is essential for students and scholars interested in the history of Northern Ireland, American-Irish relations, the Second World War on the UK home-front, and wartime transatlantic diplomacy.

Bulletin of the Public Library of the City of Boston ... Black Classic Press

In unrelenting flow of choices confronts us at nearly every moment of our lives, and yet our culture offers us no clear way to choose. This predicament seems inevitable, but in fact it's quite new. In medieval Europe, God's calling was a grounding force. In ancient Greece, a whole pantheon of shining gods stood ready to draw an appropriate action out of you. Like an athlete in "the zone," you were called to a harmonious attunement with the world, so absorbed in it that you couldn't make a "wrong" choice. If our culture no longer takes for granted a belief in God, can we nevertheless get in touch with the Homeric moods of wonder and gratitude, and be guided by the meanings they reveal? All Things Shining says we can. Hubert Dreyfus and Sean Dorrance Kelly illuminate some of the greatest works of the West to reveal how we have lost our passionate engagement with and responsiveness to the world. Their journey takes us from the wonder and openness of Homer's polytheism to the monotheism of Dante; from the autonomy of Kant to the multiple worlds of Melville; and, finally, to the spiritual difficulties evoked by modern authors such as David Foster Wallace and Elizabeth Gilbert. Dreyfus, a philosopher at the University of California, Berkeley, for forty years, is an original thinker who finds in the classic texts of our culture a new relevance for people's everyday lives. His lively, thought-provoking lectures have earned him a podcast audience that often reaches the iTunesU Top 40. Kelly, chair of the philosophy department at Harvard University, is an eloquent new voice whose sensitivity to the sadness of the culture—and to what remains of the wonder and gratitude that could chase it away—captures a generation adrift. Re-envisioning modern

spiritual life through their examination of literature, philosophy, and religious testimony, Dreyfus and Kelly unearth ancient sources of meaning, and teach us how to rediscover the sacred, shining things that surround us every day. This book will change the way we understand our culture, our history, our sacred practices, and ourselves. It offers a new—and very old—way to celebrate and be grateful for our existence in the modern world.

There is an ongoing debate as to whether African American Studies is a discipline, or multidisciplinary or interdisciplinary field. Some scholars assert that African American Studies use a well-defined common approach in examining history, politics, and the family in the same way as scholars in the disciplines of economics, sociology, and political science. Other scholars consider African American Studies multidisciplinary, a field somewhat comparable to the field of education in which scholars employ a variety of disciplinary lenses—be they anthropological, psychological, historical, etc., --to study the African world experience. In this model the boundaries between traditional disciplines are accepted, and researches in African American Studies simply conduct discipline based an analysis of particular topics. Finally, another group of scholars insists that African American Studies is interdisciplinary, an enterprise that generates distinctive analyses by combining perspectives from different traditional disciplines and synthesizing them into a unique framework of analysis. This is what a Feminist Slut Looks Like; Perspectives on the Slutwalk Movement McFarland

It has been said that M*A*S*H was a show set in the 1950s which reflected the shifting values of the 1970s and early 1980s. Hawkeye Pierce, Radar O'Reilly, Trapper John McIntyre, Sherman Potter, Margaret (Hot Lips) Houlihan, B.J. Hunnicutt, Frank Burns, Charles Emerson Winchester, Max Klinger--these and the many other characters who populated the MASH 4077 used the Korean War as a backdrop to comment on many of the social issues of their day. Using a unique blend of comedy and drama, the show's first three seasons (1972-1975) focused on the anti-Vietnam War sentiment that consumed much of America. As Vietnam ended, M*A*S*H moved on to concentrate on other contemporary issues--the women's movement, the rise of the religious

right in American politics, the new narcissism that marked the early 1980s, the heightened awareness of underage or excessive alcohol use, and the increased emphasis on family in American life. How the series presented these issues and its success in doing so are the subjects of this critical study. An episode listing--brief plot outline, casts and credits, air dates, and titles--is also provided.

Not Me Spectra

From the moment Captain America punched Hitler in the jaw, comic books have always been political, and whether it is Marvel's chairman Ike Perlmutter making a campaign contribution to Donald Trump in 2016 or Marvel's character Howard the Duck running for president during America's bicentennial in 1976, the politics of comics have overlapped with the politics of campaigns and governance. Pop culture opens avenues for people to declare their participation in a collective project and helps them to shape their understandings of civic responsibility, leadership, communal history, and present concerns. Politics in the Gutters: American Politicians and Elections in Comic Book Media opens with an examination of campaign comic books used by the likes of Herbert Hoover and Harry S. Truman, follows the rise of political counterculture comix of the 1960s, and continues on to the graphic novel version of the 9/11 Report and the cottage industry of Sarah Palin comics. It ends with a consideration of comparisons to Donald Trump as a supervillain and a look at comics connections to the pandemic and protests that marked the 2020 election year. More than just escapist entertainment, comics offer a popular yet complicated vision of the American political tableau. Politics in the Gutters considers the political myths, moments, and mimeses, in comic books—from nonfiction to science fiction, superhero to supernatural, serious to satirical, golden age to present day—to consider how they represent, re-present, underpin, and/or undermine ideas and ideals about American electoral politics.

Spiritual Wounds Grand Central Pub
A rigorously researched biography of the founder of modern magick, as well as a study of the occult, sexuality, Eastern religion, and more. The name "Aleister Crowley" instantly conjures visions of diabolic ceremonies and orgiastic indulgences—and while the sardonic Crowley would perhaps be the last to challenge such a view, he was also much more than "the Beast," as this authoritative biography shows. *Perdurabo*—entitled after the magical name Crowley chose when inducted into the Hermetic Order of the Golden Dawn—traces Crowley's remarkable journey from his birth as the only son of a wealthy lay preacher to his death in a boarding house as the world's foremost authority on magick. Along the way, he rebels against his conservative religious upbringing; befriends famous artists, writers, and philosophers (and becomes a poet himself); is attacked for his practice of "the black arts"; and teaches that science and magick can work together. While seeking to spread his infamous philosophy of, "Do what thou wilt shall be the whole of the Law," Crowley becomes one of the most notorious figures of his day. Based on Richard Kaczynski's twenty years of research, and including previously unpublished biographical details, *Perdurabo* paints a memorable portrait of the man who inspired the counterculture and influenced generations of artists, punks, wiccans, and other denizens of the demimonde.

Deterrence, Coercion, and Appeasement presents a compelling and original survey of British grand strategy in the inter-war period. Whereas most existing accounts privilege either diplomacy and foreign affairs, intelligence, or military affairs more narrowly, this study underlines the inexorable relationships between foreign policy, grand strategy, military force, intelligence, finance and not least, domestic politics and public opinion. Britain was the world's only global power in the inter-war period, and it confronted problems on a global scale. Policy-makers sought two goals: peace with security. They did so successfully in the 1920s, partly due to favourable circumstances that made their task relatively easy, and

partly because they understood the strengths and limitations of British power and knew how to wield them. The situation deteriorated rapidly in the 1930s, however, as the international system became increasingly unfavourable to Britain. Policy-makers proved less adept than their predecessors at meeting these new challenges, partly because those challenges were more formidable, but also because they lacked the self-confidence of their predecessors, who had held high office during the most difficult years of the First World War and who lacked their understanding of how to wield the lever of international power. The study ends by providing a new and more sophisticated account of how and why Neville Chamberlain appeased the fascist powers in the late 1930s, and why Winston Churchill opposed him and eventually supplanted him in May 1940. Forthcoming Books McGraw-Hill Education

This book examines the history of female adolescent sexuality in the United States from the middle of the nineteenth century until the beginning of the 1960s. The book analyzes both adult perceptions of female adolescent sexuality and the experiences of female adolescents themselves. It examines what girls knew (or thought they knew) about sex at different points in time, girls' sexual experiences, girls' ideas about love and romance, female adolescent beauty culture, and the influence of popular culture on female adolescent sexuality. It also examines the ways in which adults responded to female adolescent sexuality and the efforts of adults to either control or encourage girls' interest in sexual topics, dating, girls' participation in beauty culture, and their education on sexual topics. The book describes a trajectory along which female adolescents went from being perceived as inherently innocent and essentially asexual to being regarded (and feared) as primarily sexual in nature.

From Time to Time Knopf
Saman is a story filtered through the lives of its feisty female protagonists and the enigmatic

"hero" Saman. It is at once an exposé of the oppression of plantation workers in South Sumatra, a lyrical quest to understand the place of religion and spirituality in contemporary lives, a playful exploration of female sexuality and a story about love in all its guises, while touching on all of Indonesia's taboos: extramarital sex, political repression and the relationship between Christians and Muslims. Saman has taken the Indonesian literary world by storm and sold over 100,000 copies in the Indonesian language, and is now available for the first time in English. ABOUT THE AUTHOR

Ayu Utami was born in Bogor, grew up in Jakarta and obtained her bachelor degree in Literature Studies from University of Indonesia. She worked as a journalist for *Matra*, *Forum Keadilan*, and *D&R*. Not long after the New Order regime closed *Tempo*, *Editor*, and *Detik*, she participated in the founding of Indonesia's Alliance of Independent Journalists to protest the closure of those three weeklys. Currently she is working for the cultural journal *Kalam*, and at *Teater Utan Kayu*. Saman was awarded the Prince Claus Award in the year 2000.

[A Bloody Day at Gaines' Mill](#) Bloomsbury Publishing

In a follow-up to his #1 best-seller *Presumed Innocent*, the author presents the continuing story of Rusty Sabich, who now, 20 years after the events of the first novel, is a judge on an appellate court and must again try to exonerate himself when his wife is found dead. 750,000 first printing.

Deterrence, Coercion, and Appeasement U of Nebraska Press
When his father, a one-time stand-up comedian and humanitarian dedicated to international Jewish causes, is stricken with Alzheimer's, Michael Rosenheim begins to read about his father's life in some old journals, only to discover that the man he thought he knew had invented himself during the Second World War and hidden his dubious past. 17,500 first printing.

*Watching M*A*S*H, Watching America* Merrion Press

Winter counts? pictorial calendars by which Plains Indians kept track of their past? marked each year with a picture of a memorable event. The Lakota, or Western Sioux, recorded many different events in their winter counts, but all include ?the year the stars fell,? the spectacular Leonid meteor shower of 1833?34. This volume is an unprecedented assemblage of information on the important collection of Lakota winter counts at the Smithsonian, a core resource for the study of Lakota history and culture. Fourteen winter counts are presented in detail, with a chapter devoted to the newly discovered Rosebud Winter Count. Together these counts constitute a visual chronicle of over two hundred years of Lakota experience as recorded by Native historians. A visually stunning book, *The Year the Stars Fell* features full-color illustrations of the fourteen winter counts plus more than 900 detailed images of individual pictographs. Explanations, provided by their nineteenth-century Lakota recorders, are arranged chronologically to facilitate comparison among counts. The book provides ready access to primary source material, and serves as an essential reference work for scholars as well as an invaluable historical resource for Native communities.
