If you're in a diverse team, you know employee differences can cause miscommunication, lower trust, and hurt productivity. . . It doesn't have to be this way! The people you work with may be from a different generation, different culture, different race, different gender, or just a different philosophy toward work and life in general, but you need to work together toward a common goal. How to Work With and Lead People Not Like You explains how to dial down the differences, smooth out the friction, and play upon each other's strengths to become more effective, more productive, and less stressed. The keys are to find the common ground and identify

hidden conflicts that are hurting productivity. Many people shudder at the prospect of working with diverse groups of people, but they can't voice their fear or anxiety. At work, it's not OK or politically correct to say, 'I'm uncomfortable with this person.' In fact, if you do say something along those lines, your job may be at risk. Your company may terminate you for not being on the 'diversity bandwagon.' So you keep quiet and you keep your thoughts to yourself. But deep down, you are uncomfortable. If you feel like this, it doesn't mean you're racist, sexist, ageist, homophobic, or any other negative label. It means you're struggling. You're struggling to understand people, cultures, or values that are unfamiliar to you. You're struggling to do your job with teammates and coworkers who may have very different viewpoints or different approaches to

communication than you have. You're struggling to overcome differences and pull together to achieve high performance at work. Whether you're leading a diverse team, working in a challenging cross-cultural environment, or simply working with people who are 'not like you,' you need to be able to get along with everyone as a team, to get the work done. This book explains the skills you need to communicate, motivate, and inspire people to collaborate—even if they have very different values, lifestyles, or priorities. Learn key steps that bring cohesion to diversity

offensive remark in a professional way Retain your sanity when colleagues drive you crazy The changing demographics of today's workforce bring conflicting viewpoints, perspectives, approaches, skills, habits, and personalities together in one place; whether that leads to synergy or catastrophe is up to you. How to Work With and Lead People Not Like You helps you turn a hurdle into an advantage so you or your team can do more, achieve more, and enjoy the ride.

Ben & Jerry's has one. So do Tiffany's and Smucker's and Microsoft. It doesn't matter whether you're a small start-up or one of the biggest players in corporate America. A clear statement of intent not only inspires a sense of overall purpose for

a business or nonprofit, it serves as a practical focus for individuals within the organization. It can even provide an actual blueprint for a company's future and, ultimately, its success. Selected from among America's most successful corporations and recognizable brands, these statements vary widely in style, length, and language. However, they all share a universal vision of excellence that includes superiority in their fields, respect for and responsibility toward employees and clients, dedication to stated business goals, and community-oriented values. Additionally, 101 MISSION STATEMENTS instructs the new or future entrepreneur in crafting and customizing a mission statement that will inspire, motivate, and meet

the specific needs and aspirations of the organization and its members.
