In this renowned guide to capturing the outdoor world on film, Galen Rowell, the connoisseur of outdoor and adventure photography, reveals the art, craft and philosophy behind his world-famous images in this stunningly illustrated book. Since it's original publication almost ten years ago, this groundbreaking work remains both an inspired manual to taking better

pictures and an inspiring journey of discovery into the creative process. In more than 140 color photographs and 66 essays, Rowell shows how he transformed the natural world around him into vivid, memorable works of art. He covers everything from the practical and immensely helpful technicalities of how to pack equipment lightly and use the correct flash to the more theoretical concerns of imagining a photograph before pulling out the camera and immersing oneself fully into this natural and artistic quest. Both the artist and his unique talent come alive in these pages, a tribute to the ways in which his photographs, philosophy, and vision immeasurably enrich those who view his work. The strategies detailed in the book are designed to completely eliminate the stress of not being sure of what to do in a new or fast-moving environment. That makes it a perfect read for wedding, event, editorial, and portrait photographers. 100% Reliable Flash Photography

centers on a strategy of standardization. The first part of the book covers relevant lighting and gear knowledge mostly focusing on how to do some really good work with a simple on-camera flash, or even basic household lighting. There are also off-camera flash techniques including detailed instructions for a basic two-light manual setup that serves as Verosky's typical gear for editorial work. This leads into the core chapter, Standardization, which is about making your gear easier to use and eventually master. The book continues with techniques, examples and diagrams for indoor and outdoor lighting, then several "backstories" quickly detailing shoots with several of the portrait subjects featured in the book.
