Based in current genre theory, this guide helps writers make more informed rhetorical choices and participate more effectively within academic, workplace and public contexts. This text illustrates how to use genres to assess, understand, and write within different scenes or writing situations. Discussions of writing for academic contexts cover writing analysis, argument, and research-based genres. Public and workplace writing is illustrated through discussions of other genres—letters, resumes, proposals, reports.

In this accessible presentation of the famous Bates method, Thomas R. Quackenbush (who teaches the Bates method in California and Oregon) describes how eyesight can improve

naturally, at any age and regardless of heredity. This book is a wonderful tribute to the genius of Dr. Bates, who was a pioneer in discovering how vision becomes blurred and how it restores itself naturally to clarity and acuity. Now 80 years later, his findings and teachings remain light years ahead of our contemporaries. His approach to treating vision problems was truly holistic and the theme throughout this book is very much an extension of that holistic approach. Dr. Quackenbush is to be commended for his dedication in getting the truth out and keeping the torch burning in this "bible" on vision improvement.
