This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. With 30 exercises covering all body systems; a clear, engaging writing style; and full-color illustrations, this updated edition offers you everything needed for a successful lab experience. This edition features updated pre-lab quizzes at the beginning of each exercise, new Group Challenge activities, and an updated art program. A wide variety of laboratory exercises and activities gives students a hands-on lab experience, including organ and body dissection activities for the cat, sheep, and cow. Beautiful, full-color art and photos help students visualize anatomical structures for laboratory practice. Thorough, clearly-written exercises assist students in comprehending and retaining the material. They include background information, a list of objectives, step-by-step instructions, and exercise review sheets. Integrated to follow each lab exercise, the review sheets can be used for pre- or post-lab review. Human and cat anatomy dissection photographs/plates are included. The "Organ Systems Overview" dissection exercise includes instruction on both rat and human dissection. Color photographs of rat and human dissection views further enhance the exercise. The spiral binding gives students a useful, convenient format for taking notes during lab. Perforated pages make it convenient for students to tear out the Review Sheets.

Every day an unsuspecting child meets a sexual predator in an Internet chat room and what may happen next is every parent's nightmare. With millions of children using the Internet with limited or no adult supervision an unknowingly interacting with sexual predators, it is a very dangerous, and in many cases a deadly combination. Marilyn Mailman Segal, Ph.D., developmental psychologist specializing in early childhood development, and dean emeritus of the Family Center at Nova Southeastern University had this to say: Jay LaBonte has done an outstanding job in writing 'Parents Guide to the Internet' to guide parents to help their child enjoy their computer without being victimized. This book gives parents the information they need to become just as savvy as their children. For more information visit http://www.jaylabonte.com/details/pgi001.ht

Is construction grammar a useful framework for the study of language change? Hilpert combines the current linguistic theory of construction grammar with advanced corpus-based methodology in order to study language change in a new way. This new perspective has wide-ranging consequences for the way historical linguists think about language change.
