An award-winning scientist offers his unorthodox approach to childrearing: " Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions " (Amy Chua, author of Battle Hymn of the Tiger Mother). If you ' re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley ' s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You ' ll be laughing and learning at the same time.

Are the end times near? Is the Rapture really just around the corner? Could Jerry Falwell and Pat Robertson possibly be right? About 1 billion people among us believe, yes, absolutely. And that means one thing: investment opportunities! For those who are not as expertly versed in the Book of Revelation, Ellis Weiner and Barbara Davilman, authors of the bestselling Yiddish with Dick and Jane, helpfully offer both illumination and advice: What exactly is the Rapture, anyway? How is it different from the Tribulation? Who are the Antichrist, the Four Horsemen, and the 144,000 male virgins, and what do they want? And, most important, how can I make money during the 7 years of societal breakdown before Armageddon? Taking the familiar form of a how-to investment guide, *How to Profit From the Coming Rapture* instructs those readers who will certainly be left behind (Jews, Catholics, Muslims, Buddhists, Hindus, less ardent Protestants, and many more) on how to exploit the inevitable demise of the world in order to make a tidy profit. Sure, the rivers and seas will run with blood, locusts will swarm, mountains will move all over the place, and famine will strike. But for the five billion of us left behind, the post-Rapture world will be a time of even more unique investment opportunities.
