The terrorist attacks of September 11, 2001 reopened what many people in America had long assumed was a settled ethical question: Is torture ever morally permissible? Within days, some began to suggest that, in these new circumstances, the new answer was "yes." Rebecca Gordon argues that September 11 did not, as some have said, "change everything," and that institutionalized state torture remains as wrong today as it was on the day before

those terrible attacks. Furthermore, U.S. practices during the "war on terror" are rooted in a history that began long before September 11, a history that includes both support for torture regimes abroad and the use of torture in the jails and prisons of this country. Gordon argues that the most common ethical approaches to torture - utilitarianism and deontology (ethics based on adherence to duty) - do not provide sufficient theoretical

purchase on the problem. Both approaches treat torture as a series of isolated actions that arise in moments of extremity, rather than as an ongoing, historically and socially embedded practice. She advocates instead a virtue ethics approach, based in part on the work of Alasdair MacIntyre. Such an approach better illumines torture's ethical dimensions, taking into account the implications of torture for human virtue and flourishing. An examination of

torture's effect on the four cardinal virtues - courage, temperance, justice, and prudence (or practical reason) - suggests specific ways in which each of these are deformed in a society that countenances torture. Mainstreaming Torture concludes with the observation that if the United States is to come to terms with its involvement in institutionalized state torture, there must be a full and official accounting of what has been done, and those

responsible at the highest levels must be held accountable. Irishness and Womanhood in Nineteenth-century British Writing Simon and Schuster Help your daughter become her best, well-rounded self. Raising a girl is complicated. Empowerment messages and incredible achievements are everywhere, yet poor self-esteem, peer pressure, and fear of failure are very real

threats. This essential parenting guide shows you the seven most common issues holding girls back from reaching their full potential. Culture Voyageur Press
Who is it we love and why do we love these people? Toward the end of her life, Judith asks these questions, trying

to understand why she chose Elliot Pine to love. Why, for sixty years, did she persist in loving someone who never gave as much as he was given? In her quest for understanding, she writes her story to this exceptional man. Meeting as children in Chicago, they move to opposite coasts. Elliot embarks on a remarkable legal career in Washington and New York while Judith raises her children alone in California, after tragedy. Coming together again and again throughout their lives, their love is never equal, Elliot defining the terms of the relationship. Judith examines the role of Beauty in love, for Elliot's face and form were beautiful. She considers the role of Consolation, how they supported one another in devastating times. *Insanity, Magic, Deceit, Sensory Fulfillment, and, finally, Being Seen*—Judith looks at these many aspects of her love. Her feelings for this man cost her, impinged on every other relationship in her life: friends, her two husbands, even her three children. After sixty years, however, it all changes. Judith makes one more profound sacrifice, finally achieving a sort of long-awaited happiness in her love.

“Guides readers toward the road less consumptive, offering practical advice and moral support while making a convincing case that individual actions . . . do

matter.” —Elizabeth Royte, author, *Garbage Land and Bottlemania* Like many people, Beth Terry didn't think an individual could have much impact on the environment. But while laid up after surgery, she read an article about the staggering amount of plastic polluting the oceans, and decided then and there to kick her plastic habit. In *Plastic-Free*, she shows you how you can too, providing personal anecdotes, stats about the environmental and health problems related to plastic, and individual solutions and tips on how to limit your plastic footprint. Presenting both beginner and advanced steps, Terry includes handy checklists and tables

for easy reference, ways to get involved in larger community actions, and profiles of individuals—*Plastic-Free Heroes*—who have gone beyond personal solutions to create change on a larger scale. Fully updated for the paperback edition, *Plastic-Free* also includes sections on letting go of eco-guilt, strategies for coping with overwhelming problems, and ways to relate to other people who aren't as far along on the plastic-free path. Both a practical guide and the story of a personal journey from helplessness to empowerment, *Plastic-Free* is a must-read for those concerned about the ongoing health and happiness of themselves, their children, and the

planet.

Step back in time to a simpler life as you read this captivating

memoir of growing up in the 1950s on the small island of Prudence along the New England coast. Step back in time to a simpler life as you read this captivating memoir of growing up in the 1950s on the small island of Prudence along the New England coast. A story of reconnecting to long-forgotten childhood bonds and memories, Debbie Kaiman Tillinghast's *The Ferry Home* embraces joyful moments with humor and more troubling emotions with compassion.

If you have ever faced emotional challenges within your family or had a sibling relationship with both squabbles and shared mischief, if you have found peace in one memorable place, or if you have ever longed for any of these, then this book is for you. Experience the rhythm of life on Prudence Island, the ebb and flow of changing tides and seasons, and the patterns and relationships that emerge. It is a place where independence is fostered, but friends are always

there when needed. As Debbie's vivid accounts unfold, you will feel like you too have just stepped off the ferry and been embraced by the tiny Prudence Island community. Index Oxford University Press (UK) Elizabeth Cleghorn Gaskell, nee Stevenson (29 September 1810 - 12 November 1865), often referred to simply as Mrs Gaskell, was a British novelist and short story writer during the Victorian era. Her novels offer a detailed portrait of the lives of many strata of society, including the very poor, and are of interest to social historians as well as lovers of literature. Gaskell was also the first to write a biography of Charlotte Bronte, *The Life of Charlotte Bronte*, which was published in 1857. Mrs Gaskell's first novel, *Mary Barton*, was published anonymously in

1848. The best-known of her remaining novels are *North and South* (1854), and *Wives and Daughters* (1865). In this book: *Ruth Sylvia's Lovers* -- *Complete Cousin Phillis* *My Lady Ludlow* *Curious, if True, Strange Tales* "*Cheap and Easy!*" *Washing Machine Repair* EB Publishing
 When it became public that Osama bin Laden's death was announced with the phrase "Geronimo, EKIA!" many Native people, including Geronimo's descendants, were insulted to discover that the name of a Native

patriot was used as a code name for a world-class terrorist. Geronimo descendant Harlyn Geronimo explained, “Obviously to equate Geronimo with Osama bin Laden is an unpardonable slander of Native America and its most famous leader.” The Militarization of Indian Country illuminates the historical context of these negative stereotypes, the long political and economic relationship between the military and Native America,

and the environmental and social consequences. This book addresses the impact that the U.S. military has had on Native peoples, lands, and cultures. From the use of Native names to the outright poisoning of Native peoples for testing, the U.S. military’s exploitation of Indian country is unparalleled and ongoing. Consumer Reports Buying Guide John Wiley & Sons How Native American history can guide us today: “Presents strong

voices of old, old cultures bravely trying to make sense of an Earth in chaos.” —Whole Earth Written by a former Green Party vice-presidential candidate who was once listed among “America’s fifty most promising leaders under forty” by Time magazine, this thoughtful, in-depth account of Native struggles against environmental and cultural degradation features chapters on the Seminoles, the Anishinaabeg, the Innu, the Northern Cheyenne, and the Mohawks, among others. Filled with inspiring testimonies of struggles for

survival, each page of this volume speaks forcefully for self-determination and community.

“Moving and often beautiful prose.”

—Ralph Nader

“Thoroughly researched and convincingly written.” —Choice

Plastic-Free Pebble Books

An alien intelligence initiates first contact with the Earth, but it may be the last thing we ever hear. As Cal-Tech astrophysicist Allan Sands prepares to spend another perfect Pasadena Christmas with his wife and children, he realizes something isn't right. The television doesn't work, mobile networks are down, and the internet slows to a halt. When Allan

notices celestial objects are absent from the early-morning sky he knows this is no power outage or terrorist attack. He heads to nearby Mt. Wilson Observatory, where he discovers the cause of the strange Event is worse than he could have imagined. From his perch above Los Angeles Allan can see the oncoming tsunami that will devastate the coastline and kill millions, foreshadowing disasters soon to befall the entire planet. And he may be the only person who knows why. 2,500 miles away at Hickam Air Force Base in Honolulu Lieutenant Lee Green and her raptor squad are the only pilots left to escort the president to

safety as the world scrambles to save lives and comprehend what is happening. Their next mission: Find Allan Sands and the other scientists on the president's secret First Contact list. Will the world be ready to hear what the scientists conclude about the mysterious so-called Event that turned day to night? When a strange object is spotted heading for the Earth the world wonders if the aliens are coming in peace to help us survive or to finish what they started. Equal parts high concept and high action, the Filter Trap explains Fermi's Paradox in a way that contrasts the hidden terrors of the universe with the ever-present hope in the human heart.

Macmillan
This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. With 30 exercises covering all body systems; a clear, engaging writing style; and full-color illustrations, this updated edition offers you everything needed for a successful lab experience. This edition features updated pre-lab quizzes at the beginning of each exercise, new Group Challenge activities, and an updated art program. A wide variety of laboratory exercises and activities gives students a hands-on lab experience, including organ and

body dissection activities for the cat, sheep, and cow. Beautiful, full-color art and photos help students visualize anatomical structures for laboratory practice. Thorough, clearly-written exercises assist students in comprehending and retaining the material. They include background information, a list of objectives, step-by-step instructions, and exercise review sheets. Integrated to follow each lab exercise, the review sheets can be used for pre- or post-lab review. Human and cat anatomy dissection photographs/plates are included. The "Organ Systems Overview" dissection exercise includes instruction

on both rat and human dissection. Color photographs of rat and human dissection views further enhance the exercise. The spiral binding gives students a useful, convenient format for taking notes during lab. Perforated pages make it convenient for students to tear out the Review Sheets.
