Cambridge University Press

A hands-on, applications-based approach to the design and analysis of commonly used centrifugal pumps Centrifugal Pump Design presents a clear, practical design procedure that is solidly based on theoretical fluid dynamics fundamentals, without requiring higher math beyond algebra. Intended for use on the factory floor, this book offers a short, easy-to-read description of the fluid mechanic phenomena that occur in pumps, including those revealed by the most recent research. The design procedure incorporates a simple computer program that allows designs to be

checked immediately and corrected as needed; readers learn to calibrate the performance calculation program based on their own test data. Other important features of this book include: * Up-to-date coverage of detailed design data * Guidance on selection, troubleshooting, and modification of existing pumps * A numerical example illustrating the design of a pump as readers move through the book * Manual calculations-including worked examples-and personal computer program listings critical to pump design * Ample references to all subjects for further study This unique handbook closes the gap between research and application and puts the fundamentals of advanced fluid mechanics where they will do the most good: in the hands of engineers, teachers, and designers who create industrial pumps.

Algorithm Design and Applications OUP Oxford Originally published in the early 1930s this learned work on Sex and Marriage presents in a realistic and practical manner the essential facts of mating and reproduction whilst also dealing with common sexual and marital problems which confront the average couple. Contents Include: Fitness for Marriage The Biology of Marriage The Male Sex Organs The Female Sex Organs Reproduction Problems of Reproduction Prevention of Conception The Art of Marriage Sex Technique and Orgasm Sexual Disharmonies Health in Marriage etc. Illustrated. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Home Farm Books are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Story of an Ancient Life Wiley Global Education

A look at Fayetteville, North Carolina, home to Fort Bragg, that poses the question, 'Are we all military dependents?' Fayetteville has earned the nicknames of Fatalville and Fayetteenam. Unusual and not-sounusual features of the town include gross income inequalities, an extraordinarily high incidence of venereal disease, miles and miles of strip malls, and a history of racial violence. Through interviews with residents and historical research, Catherine Lutz immerses herself in the life of the town to discover how it has supported the military for over a century. From secret training operations that use civilians as mock enemies and allies to the satellite economy of the town, Lutz's history of Fayetteville reveals the burdens that military preparedness creates for all of us.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. With 30 exercises covering all body systems; a clear, engaging writing style; and full-color illustrations, this updated edition offers you everything needed for a successful lab

experience. This edition features updated pre-lab quizzes at the beginning of each exercise, new Group Challenge activities, and an updated art program. A wide variety of laboratory exercises and activities gives students a hands-on lab experience, including organ and body dissection activities for the cat, sheep, and cow. Beautiful, full-color art and photos help students visualize anatomical structures for laboratory practice. Thorough, clearly-written exercises assist students in comprehending and retaining the material. They include background information, a list of objectives, step-by-step instructions, and exercise review sheets. Integrated to follow each lab exercise, the review sheets can be used for pre- or post-lab review. Human and cat anatomy dissection photographs/plates are included. The "Organ Systems Overview" dissection exercise includes instruction on both rat and human dissection. Color photographs of rat and human dissection views further enhance the exercise. The spiral binding gives students a useful, convenient format for taking notes during lab. Perforated pages make it convenient for students to tear out the Review Sheets.

Setting Up Joint Ventures in China Cambridge Edition of the Works

A complete compilation of the Webster Grove novellas: The New Girl, Under the Mistletoe, Secrets to Keep, Coming Out, and All Good Things. THE NEW GIRL: Seventeen-year-old Steph has her heart set on a new beginning... for the eleventh time.

A move to Webster Grove introduces her to a new school, new friends, and new experiences- including a few tender glances from her sexy English teacher. After signing up for a costuming position on the school production of Romeo and Juliet, co-directed by none other than the gorgeous Mr. Rivera, Steph soon learns the difficulties of withstanding the pursuit of forbidden love.

UNDER THE MISTLETOE It's beginning to look a lot like Christmas in Webster Grove, but seventeen-year-old Steph isn't in the mood to celebrate. When Mr. Rivera's attitude goes from bad to worse, Steph makes it her number one priority to help the Christmas Grinch rekindle his relationship with the holiday spirit. Meanwhile, Webster Grove High's newest student, Isaac Peyton, is raising the eyebrows of every girl in school, and keeping Steph on her toes with his questionable motives. With the days ticking by, all Steph wants is to turn a seemingly blue Christmas into a holiday she'll never forget...

SECRETS TO KEEP: Secrets, secrets, are no fun! And with each day that passes in Webster Grove, eighteen-year-old Steph is learning that lesson the hard way. Between dodging stares, kisses, and mixed signals from the man of her dreams, Steph has more on her plate than she can handle. With wedding plans officially underway for the Rivera/Ghijk wedding, Steph is working overtime to lose weight and finally fit into her bridesmaid gown. And if all that's not enough, she's pulled into a lie that forces her to start holding up appearances with a new (fake) boyfriend. With her three best friends at her side and one beautiful man in her heart, Steph has to decide if happily ever after is worth the wait...

COMING OUT: Eighteen-year-old Steph is facing many uncertainties, and the problems just keep piling up! Secrets from the past are slowly unraveling, close relationships are falling apart, and big revelations stand to test the strength of true friendships. Will love and forgiveness be enough to conquer all of the truths that are coming out? Steph can't find the answer, but she's praying she can figure it out before she leaves for Paris... if she decides to go at all.

ALL GOOD THINGS: After five years of working side-by-side in Paris with one of the most esteemed fashion designers in the industry, twenty-three-year-old Steph Ghijk has packed her bags and returned to the States. Upon her arrival in the familiar town of Webster Grove, Steph takes on a directing position for the high school drama production - putting her in very close quarters with a man who hasn't quite forgiven her for her long overdue return.

Unable to choose between her heart and her head, Steph is taking each day at a time... and hoping the love she once had will be the final love of her life.
