This analysis covers the tasks performed by technicians who service domestic appliance products. The analysis identifies tasks and sub-tasks performed by such technicians, arranged in blocks of distinct operations relevant to that occupation. These blocks include workplace safety, business practices, tools and equipment, appliance installation, and diagnosis and repairs of electrical, mechanical, water, air, sealed, and gas systems. For each task, the document outlines the element of skill and knowledge needed to perform the task adequately, identifies any shifts or changes in technology that affect the task, lists tools and equipment required for the task, and provides an indication of whether the task has been validated by each province and territory. The appendix includes a list of tools and equipment used in the occupation, and a tabulation of the percentage of time a worker spends performing each block and task in a given year (by province/territory and for Canada as a whole).

Manual of Temporomandibular Disorders is a four-color, softcover handbook of information on temporomandibular disorders, an array of medical and dental conditions that affect the temporomandibular joint (TMJ), masticatory muscles, and contiguous structures. The book will provide evidence-based, clinically practical information that allows dentists to diagnose TMD accurately, rule out disorders that mimic TMD (that is, make a differential diagnosis), and provide effective therapy for most patients. This title offers comprehensive coverage in a compact package. The book's tone is conversational, with a focus on solving TMD problems at chairside. The author's crisp, engaging writing style allows the clinician to find precise answers quickly, without wading through a morass of detail.
