The definitive, fully illustrated celebration of an auto manufacturer that paved its own way by going off-road is now updated to celebrate Jeep's 80th anniversary. Few American vehicles, or vehicles made anywhere else in the world for that matter, are as universally iconic as the Jeep. From olive drab WWII military relics to the beloved Wrangler with its rear-mounted spare tire, open-air design, and telltale roll cage, the Jeep is a true classic. In *Jeep: Eight Decades from Willys to Wrangler*, automotive writer Patrick R. Foster chronicles Jeep vehicle design and production from the beginning of World War II to present. Beginning with the Jeep as a crucial component of the American war fleet, Foster expertly recounts the corporate shifts, financial struggles and successes, close calls, and, above all, the enduring machines that have carried Jeep from the early 1940s to its triumphant role as a modern-day embodiment of American perseverance. More than 200 color and black-and-white historical photos and period advertisements complement his expertly written narrative of Jeep's entire history, now updated to include five years of new model editions and prototypes, its return to the pickup market, and recent stunning marketplace successes. The resulting book reminds us that sometimes the road less traveled was just waiting for the right truck.

The background for *The Summer Camp Uprising* is the Vietnam War. The year is 1969. America is bogged down in a war which appears to be both bloody and pointless to college students subject to the military draft. Many have spent much of the past school year protesting American involvement in the war. Some of that protest went well beyond speeches and angry signs. Students have taken over college buildings and organized sit-down strikes in Dean's offices. The protest movement, which started with the war, evolved into clashes between young people and "the establishment" in unexpected places. One such field was Children's Summer camps, where some of the very same student protestors obtained summer jobs as camp counselors. *The Summer Camp Uprising* revolves around three men

representing three different generations. Nelson Cohen is the camp owner and director and has been doing things his way with great success for years. Vico Leone is the new Head Counselor, in charge of camp programming as well as staff motivation and discipline. Joey Katz, group leader for the oldest boys, comes to camp after a school year in which he was an active protest leader. Joey has his own ideas on how a camp should be run and is vocal in his opposition to some of the camp's parietal rules for the Counselors. The conflict of cultures is ripe to explode and does.

Established in the 1940s to produce and sell domestic labour-saving devices, Kenwood has survived and evolved to become a British icon. It is high time someone recorded (almost) everything they ever made, and put a date to it, so that future generations can make sense of what was happening in U.K. kitchens, in business, in industrial design and in manufacturing. The first item off the production line, the Turnover Toaster, was made by Roger Laurence and Kenneth Wood in 1947, and over a hundred separate domestic objects would follow over the next thirty years. Inside this book, you will find full-colour photographs, descriptions and original retail prices of these mixers, accessories and appliances, right up to the model A901 Chef, first launched in 1976. Among many others, this book covers the A100 Turnover Toaster, A200 Mixer, A700 Chef, A600 Activair, A701/A Chef, A724 Mk I and II Coffee Mills, A740 Juice Extractor, A500 Roto-Blend, A955 Kenmix Blender, A1212 Dishwasher, A520 Blender, A888 MatchMaker Rollers and A180 Sodastream. One of the most influential works of this century, *The Myth of Sisyphus and Other Essays* is a crucial exposition of existentialist thought. Influenced by works such as *Don Juan* and the novels of Kafka, these essays begin with a meditation on suicide; the question of living or not living in a universe devoid of order or meaning. With lyric eloquence, Albert Camus brilliantly posits a way out of despair, reaffirming the value of personal existence, and the possibility of life lived with dignity and authenticity.

Making Beats Alfred Music

Based on ten years of research among hip-hop producers, *Making Beats* was the first work of scholarship to explore the goals, methods, and values of a surprisingly insular community. Focusing on a variety of subjects—from hip-hop artists' pedagogical methods to the Afrodiasporic roots of the sampling process to the social significance of "digging" for rare records—Joseph G. Schloss examines the way hip-hop artists have managed to create a form of expression that reflects their creative aspirations, moral beliefs, political values, and cultural realities. This second edition of the book includes a new foreword by Jeff Chang and a new afterword by the author.
