India, bounded by the majestic Himalayan ranges in the North and edged by an endless stretch of golden beaches, is the land of hoary tradition and cultural diverse. Vivid kaleidoscope of landscapes, glorious historical sites and royal cities, misty mountain hideaways, colourful people, rich civilizations and festivities craft India Incredible. Recent years have witnessed the educational scene, especially the higher education sector in the State undergoing

a sea change in respect of quality, diversity and accessibility in tune with the global trends. Kerala's surge in the educational front is to be viewed in the backdrop of the country's great legacy in education. India has been a major seat of learning for thousands of years. The country was home to Takshashila, the first university in the world and Aryabhama, the inventor of the digit Zero. In fact, education in Kerala has now become more value added and affordable, thanks to the pro-active initiatives of the State Government and active involvement of the private sector. Moreover, in the higher education market, Kerala has a significant edge in respect of cost which means that there would be growing influx of candidates into the state from outside the state for better and affordable professional education in the days to come. With the most sought after professionals and excellent network of institutes Kerala is becoming the very preferred educational destination in the world. And, we are equipped for you with some elucidations which step-up her significance in the educational map. In Campus Plus, we propose some valuable information along with a number of educational institutes in the State which will be useful for the students and parents in the higher education scenario.

This book is an attempt to penetrate the silence that surrounds the lives of nurses as migrant women. It offers a perceptive understanding of the trials faced specifically by women from the state of Kerala, in their personal and professional spheres, in the challenges posed to single women migrants as such, and the lower status ascribed to the job. In highlighting aspects of their lived experiences, it reveals how the identities of gender, class and ethnicity unmask the realities behind claims of egalitarianism and equal citizenship.

Nurses from Kerala form one of the largest groups of migrant women workers in the international service sector along with Filipinos and Sri Lankans.

Comparatively better salaries, work opportunities and financial independence, along with a desire to travel across the world, are often the reasons behind

these migrations. For many of these women, the professional choice of nursing is usually the first step towards migration, while finding employment in Delhi, the urban capital of India, is intended as a transition point before they migrate abroad, a trajectory which may remain unrealised. In focusing on nurses who choose to work in Delhi, the author recounts how the patriarchy of the original place is recreated and relived in destination cities. In as much as traditional stigmatisation of nursing (as a 'dirty' profession), deeply entrenched gender prejudices, and status and role anxieties act as deterrents, these women remain undaunted in the face of adversities and treat their exposure to, and experience of, technology and nursing care in the bigger hospitals in Delhi as part of the training that is required to apply abroad. Through extensive empirical research, case studies and personal interviews, Moving with the Times illustrates nurses' lives in Delhi, providing an account of the dynamics — between traditional patriarchy, norms and associated identities, low professional status and marginality coupled at once with the sense of personal freedom, a new career and space — that migration compels these women to negotiate. This book will appeal to scholars of sociology, gender and women 's studies, nursing and healthcare, and those interested in migration and identities.

Directory of Para Medical Institutions in India, 1976 JP Medical Ltd

Politics of Precarity presents an analysis of contemporary labour politics that emerges with informalization and privatization of crucial social sectors, and in this case one of the few feminized occupations—the nursing sector. Contrary to common understanding, nursing service is not a homogenous sector, but a deeply splintered one based on historically and socially produced structural inequalities and is rigidly cleaved along the lines of 'prestigious' and 'dirty' work. The levels of classification in this sector are reflected in and constituted by material realities, such as wages, terms of employment, extent of skills, and possession of qualifications. Drawing on three years of fieldwork in hospitals and nursing homes in the city of Kolkata, the book is an ethnographic study that analyses how hierarchies at workplace intersect with social identities to produce a differentiated workforce. The book interrogates the politics of distinction and distancing that produces a feminine workforce divided by class, caste, and sexualities to examine the various contestations among ranks of workers who deploy modernity, morality, and gendered norms as strategies to secure marginal gains at the expense of others.

Gender, Status and Migration of Nurses in India Biju Mathew | Info Kerala

The Indian state of Kerala is known for its high social model of development and social democratic governance. This book presents the most comprehensive analysis of the Kerala Model of Social Development to date. The model has often been identified as one worth emulating because it is seen to have taken the state to the zenith of human development and democratic governance. Using an interdisciplinary approach, the book sheds new light on the paradoxes of the Indian state and its model of economic development. The book provides a consolidated exploration and critique of the Kerala model, which usually has been portrayed as linear with the grand narrative of progress, development and democracy. Chapters discuss the past and present dimensions of the Kerala experience from a historical and political-economic perspective, thus providing a fresh understanding of the emerging concerns in the state and the construction of an ethically viable development agenda, eschewing the scourge of social inequity. A significant contribution to the literature on development,

democracy and the state, it analyses the complex interconnectedness of the various political-economic and socio-cultural domains involved in these experiences.

Taylor & Francis

Health and medicine cannot be understood without considering the role of nurses, both as professionals and as working women. In India, unlike other countries, nurses have suffered an exceptional degree of neglect at the hands of state, a situation that has been detrimental to the quality of both rural and urban health care. Charting the history of the development of nursing in India over 100 years, Indian Sisters examines the reasons why nurses have so consistently been sidelined and excluded from health care governance and policymaking. The book challenges the routine suggestion that nursing's poor status is mainly attributable to socio-cultural factors, such as caste, limitations on female mobility and social taboos. It argues instead that many of its problems are due to an under-achieved relationship between a patriarchal state on the one hand, and weak professional nursing organisations shaped by their colonial roots on the other. It also explores how the recent phenomenon of large-scale emigration of nurses to the West (leading to better pay, working conditions and career prospects) has transformed the profession, lifting its status dramatically. At the same time, it raises questions about the implications of emigration for the fate of health care system in India. An important contribution to the growing academic genre of nursing history, the book is essential reading for scholars and students of health care, the history of medicine, gender and women's studies, sociology, and migration studies. It will also be useful to policymakers and health professionals.

Campus Plus 2014 Biju Mathew | Info Kerala Communications Pvt Ltd

The book covers the local history of Vanchiyoor ward in Thiruvanthapuram City. This book is organised into 23 chapters. Dr. Shashi Tharoor (Member of Parliament, India) has hailed the book as a breakthrough achievement and a unique contribution. The book is divided into 23 chapters and start with a general overview of local History and go on to cover the early and recent history of vanchiyoor, its place names and sketch important institutions in the area, which have crossed a century. Two famous agitations have taken place in Vanchiyoor (District court) which features in these chapters. the book also deals with thirteen Temples, Mosques and Churches some of which have are ancient. A brief study of communities is also portrayed in the books. In Chapter 17 , a study into 55 institutions having rich history of over 100 years can also be seen. A biographical sketch of over 50 personalities can be seen in chapter 18. Chapter 19 is a unique one , it deals with flora, fauna and water bodies, a history of nature of sorts. The last chapter "Miscellany" is a confetti of nearly 50 brief notes on variety of matters, as varied as indigenous food like 'ada' and 'Seva', to noise pollution, to 'Kadathinna', to 'Hanuman Padaram'. "A miniature picture of Travancore from collective memory, oral history and archival sources." - Manu Pillai
