Cambridge English First 3 Student's Book without Answers Cambridge English "Existing scholarship on living history museums addresses the subject from a museum-studies or anthropology perspective. With his background in theatre history and theory, however, Scott Magelssen analyzes living history museums using postmodern methodology. He offers suggestions for performance in an increasingly postmodern landscape,

presents performance as a method for the study of history, explores emergent nontraditional theatrical practices, and concludes with an international listing of institutions and complete list of sources. Living History Museums is an invaluable resource for students and teachers of folklore and popular culture, as well as theatre, performance, and cultural, American, and museum studies."--BOOK JACKET.
